Project No. **23723.000.001**

October 4, 2023

Mr. Tim Pasquinelli Campbell Technology Park, LLC 1960 The Alameda San Jose, CA 95125

Subject: Campbell Technology Park

Campbell, California

MODIFIED PHASE I ENVIRONMENTAL SITE ASSESSMENT

Dear Mr. Pasquinelli

ENGEO is pleased to present our modified phase I environmental site assessment of the subject property (Property), located in Campbell, California. The attached report includes a description of the site assessment activities, along with ENGEO's findings, opinions, and conclusions regarding the Property.

ENGEO has the specific qualifications based on education, training, and experience to assess the nature, history, and setting of the Property, and has developed and performed all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312 and the American Society for Testing and Materials (ASTM) Practice E1527-21. We declare that, to the best of our professional knowledge and belief, the responsible charge for this study meets the definition of Environmental Professional as defined in Section 312.10 of 40 CFR Part 312 and ASTM E1527-21.

We are pleased to be of service to you on this project. If you have any questions concerning the contents of our report, please contact us.

Sincerely,

ENGEO Incorporated

William Hunsdale

Shawn Munger, CHG, PG

EXECUTIVE SUMMARY

ENGEO conducted a modified phase I environmental site assessment for the subject property located at 635 – 695 Campbell Technology Parkway, Campbell, California (Property). The Property is approximately 17.3 acres in area and is identified by Assessor's Parcel Numbers (APNs) 412-29-010, 412-29-011, 412-29-012, and 412-29-015.

The Property is currently occupied by four 1- to 2-story office buildings with associated parking and landscaping. The existing office buildings were constructed in 2000 and range between approximately 30,100 square feet (sf) to 50,500 sf in area. The Property is bounded by Campbell Technology Parkway to the south, State Route 17 to the northwest, and multi-family residential developments to the east.

This assessment included a review of local, state, tribal, and federal environmental record sources, standard historical sources, aerial photographs, fire insurance maps and physical setting sources. A reconnaissance of the Property was completed to review site use and current conditions to check for the storage, use, production, or disposal of hazardous or potentially hazardous materials and to conduct written/oral interviews with persons knowledgeable about current and past site use.

The site reconnaissance and records review did not find documentation or physical evidence of soil, soil gas, or groundwater impairments associated with the use or past use of the Property. A review of regulatory databases maintained by county, state, tribal, and federal agencies found no documentation of hazardous materials violations or discharge on the Property and did not identify contaminated facilities within the appropriate ASTM search distances that would reasonably be expected to impact the Property.

Review of historical records indicates that the Property had been used as agricultural land since at least the 1940s. Since the Property was historically used for agricultural activities, an agrichemical assessment of the surface soil was conducted to evaluate the potential for residual concentrations of organochlorine pesticides (OCPs), arsenic, and lead. In general conformance Cal-EPA Department of Toxic Substances Control guidance, soil samples were collected on August 25, 2023, from 27 locations across the Property (Figure 2). Soil samples were collected from 6 to 12 inches, 18 to 24 inches, and 30 to 36 inches below the surface of the existing grade using a direct-push drill rig. Upon collection, samples were composited into six 4:1 samples and one 3:1 sample, and submitted to Torrent Laboratory for analysis of organochlorine pesticides (EPA Method 8081). A discrete sample from each composite (seven total) were analyzed for total arsenic and lead (EPA Method 6010). All samples collected at 18 to 24 inches and 30 to 36 inches bgs were held pending laboratory analysis of the samples collected from 6 to 12 inches bgs.

Review of laboratory analytical reports indicate the trace levels of lead and arsenic were detected in each of the discrete shallow soil samples. All reported concentrations of lead were between 12.9 and 36.3 mg/kg, which is below the corresponding residential screening level of 80 mg/kg. All reported concentrations of arsenic were between 2.65 and 8.43 mg/kg, which is below the expected background concentration of 11 mg/kg for the San Francisco Bay Area.

Trace concentrations of OCPs were detected in each of the shallow composite samples. 4,4'-DDD was detected at concentrations between 0.0132 and 0.0387 mg/kg in Composites SB-5,18,19,24, SB-11,12,13,14, and SB-8,9,10. 4,4'-DDE was detected at concentrations between 0.0144 and 0.112 mg/kg in each of the analyzed composite samples. 4,4'-DDT was detected at

concentrations between 0.204 and 0.0084 mg/kg in composites SB-3,4,20,23 and SB-11,12,13,14. All reported concentrations of OCPs were detected below the corresponding residential ESLs

Based on the findings of this assessment, no Recognized Environmental Conditions (RECs), no historical RECs, and no controlled RECs were identified for the Property.

Based on the review of regulatory databases and site reconnaissance, we present information on features of potential environmental concern or considered de minimis conditions that were either contained in the databases or observed on the Property. These features were not considered to be RECs. We briefly discuss each feature below.

We have performed a modified phase I environmental site assessment in general conformance with the scope and limitations of ASTM E1527-21 and the standards and practices of the All Appropriate Inquiry – Final Rule (40 Code of Federal Regulations Part 312). Any exception to, or deletions from this practice are described in Section 8.1 of the report.

It is our opinion that the findings of this study are based on a sufficient level of information obtained during our contracted scope of services to render a conclusion as to whether additional appropriate investigation is required to identify the presence or likely presence of a REC. The following data gap was identified.

• The interiors of the structures located on the Property were not observed during site reconnaissance.

The data gap identified during this process does not affect the conclusions as to the presence or lack of presence of RECs at the Property.

This assessment has revealed no evidence of RECs in connection with the Property. We recommend no further environmental studies at this time.

Please note, the findings from this report are valid until August 10, 2024, and updates of portions of the assessment may be necessary after February 10, 2024.

1.0 INTRODUCTION

1.1 PURPOSE OF PHASE I ENVIRONMENTAL SITE ASSESSMENT

This assessment was performed at the request of Mr. Tim Pasquinelli for the purpose of environmental due diligence during property acquisition. The objective of this modified phase I environmental site assessment is to identify Recognized Environmental Conditions (RECs) associated with the Property. As defined in the ASTM Standard Practice E1527-21, an REC is "(1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment."

1.2 DETAILED SCOPE OF SERVICES

The scope of services performed included the following.

- A review of publicly available and practicably reviewable standard local, state, tribal, and federal environmental record sources.
- A review of publicly available and practicably reviewable standard historical sources, aerial
 photographs, fire insurance maps and physical setting sources.
- A reconnaissance of the Property to review site use and current conditions. The reconnaissance was conducted to check for the storage, use, production or disposal of hazardous or potentially hazardous materials.
- Written/oral interviews with owners/occupants and public sector officials.
- An agrichemical impact assessment of soil at the Property.
- Preparation of this report with our findings, opinions, and conclusions.

1.3 SITE LOCATION AND DESCRIPTION

The Property is located at 635 – 695 Campbell Technology Parkway in Campbell, California (Figures 1 and 2). The approximately 17.3-acre Property is identified as by APN's 412-29-010, 412-29-011, 412-29-012, and 412-29-015 (Figure 3) and is currently occupied by four multi-story office buildings with associated parking and landscaping.

1.4 CURRENT USE OF PROPERTY AND ADJOINING PROPERTIES

The four multi-story office buildings at the Property were constructed in 2000 and range between approximately 30,100 square feet (sf) and 50,500 sf in footprint area. According to the City of Campbell, the Property is zoned as High Density Mixed Use (HD-MU) and Planned Development (P-D) for research and development purposes.

Based on a review of current records and our site reconnaissance, the adjoining site uses are summarized below.

TABLE 1.4-1: Adjoining Site Uses

DIRECTION	SITE USE
North	State Route 17; Multi-Family Residential Developments
South	Edith Morley Park; Commercial / Industrial Businesses
East	Single-Family Residential Developments
West	State Route 17; Los Gatos Creek Trail

1.5 SITE AND VICINITY CHARACTERISTICS

According to published topographic maps, site grades at the Property range from approximately Elevation 203 feet (WGS-84) in the north to approximately Elevation 214 feet to the southwest. Review of the Geologic Map of the Cupertino and San Jose West quadrangles, Santa Clara and Santa Cruz Counties (Dibblee, Minch, 2007) found that the Property is underlain by alluvial gravel, sand, silt, and clay from younger stream alluvium in fan deposits.

Geocheck – Physical Setting Source Summary of the Environmental Data Resources, Inc. (EDR) report (Appendix A) indicated eight federal United States Geological Survey (USGS) and 91 state wells located within 1 mile of the Property. Well Number 372767N1219439W001 is mapped approximately 0.15 mile south of the Property and consistent groundwater level measurements since 2004 are reported for this well.

We reviewed the Department of Water Resources On-line Water Data Library for depth to water in the vicinity of the Property. The website identified three wells within 1 mile of the Property.

We reviewed EnviroStor, a website maintained by the State of California Department of Toxic Substances Control, and GeoTracker, a website maintained by the State of California Water Resources Control Board, for nearby facilities with records that include depth-to-groundwater measurements. The following information was obtained regarding local groundwater conditions.

TABLE 1.5-1: Local Groundwater Conditions

PROXIMITY TO PROPERTY	REPORTED DEPTH TO GROUNDWATER	REPORTED GROUNDWATER FLOW DIRECTION
0.15 mile south	91	N/A
0.15 mile south	101	N/A
0.8 mile west	90	N/A

The site-specific depth to groundwater and direction of groundwater flow were not determined as part of this assessment. Fluctuations in groundwater levels may occur seasonally and over a period of years due to variations in precipitation, temperature, irrigation, and other factors.

We reviewed the Department of Conservation, Geologic Energy Management (CalGEM), website and map database to determine if any historical oil or gas wells were located within the Property. No oil or gas wells were mapped within 1 mile of the Property.

We reviewed the National Pipeline Mapping System (NPMS) public viewer website for information about petroleum, natural gas, or hazardous liquid storage, processing, or transmission facilities in the vicinity of the Property. No facilities or pipelines were mapped within ½ mile of the Property.

1.6 INDOOR AIR QUALITY

An evaluation of indoor air quality, mold, or radon was not included as part of the contracted scope of services. The California Department of Public Health has conducted studies of radon risks throughout the state, sorted by zip code. Results of the studies indicate that 36 tests were conducted within the Property zip code, with 2 tests exceeding the current EPA action level of 4 picocuries per liter (pCi/L)¹.

In accordance with ASTM E2600-15 (Tier 1) (Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions); There are no potential petroleum hydrocarbon sources for vapor intrusion within 1/10 mile of the Property or volatile organic compound (VOCs) sources within 1/3 mile of the Property.

2.0 RECORDS REVIEW

2.1 PROPERTY RECORDS

2.1.1 Title Report/Ownership

The Title Report lists recorded land title detail, ownership fees, leases, land contracts, easements, liens, deficiencies, and other encumbrances attached to or recorded against a subject property. Laws and regulations pertaining to land trusts vary from state to state and the detail of information presented in a Title Report can vary greatly by jurisdiction. As a result, ENGEO utilizes a Title Report, when provided to us, as a supplement to other historical record sources. ENGEO assumes that any environmental lien, activity use limitations (AUL), and/or institutional controls for the Property are noted in the Preliminary Title Report.

A Preliminary Title Report for the Property, prepared by Chicago Title Company and dated August 4, 2023, was provided for our review. The Property title is vested in *Campbell Technology Park, LLC, a California limited liability company*.

No references to environmental liens, deed restrictions or other potential environmental issues were noted. This report is included in Appendix B.

2.1.2 Environmental Liens and Activity Use Limitations

Review of the Preliminary Title Report found No references to environmental liens, deed restrictions or other potential environmental issues. In addition, a questionnaire completed by the Client or authorized representative indicated that they are not aware of any environmental cleanup liens recorded against the Property.

We reviewed two engineering control (EC) and institutional control (IC) registries: EnviroStor, a website maintained by the State of California Department of Toxic Substances Control, and GeoTracker, a website maintained by the State of California Water Resources Control Board, for environmental liens or AULs associated with the Property. No records of environmental liens or AULs were noted.

1

2.2 HISTORICAL RECORD SOURCES

The purpose of the historical record review is to develop a history of the previous uses or occupancies of the Property and surrounding areas to identify those uses or occupancies that are likely to have led to recognized environmental conditions on the Property.

2.2.1 Historical Topographic Maps/Aerial Photographs/Sanborn Maps

Historical USGS topographic maps, aerial photographs, and Sanborn fire insurance maps were reviewed to determine if discernible changes pertaining to the Property had been recorded. EDR provided the following maps and photographs, presented in Appendices C and D. A Sanborn fire insurance map search did not identify maps for the Property; the search report is presented in Appendix E.

TABLE 2.2.1-1: Historical Review Summary

HISTORICAL MAP/PHOTOGRAPH	YEARS
Topographic Maps	2018, 2015, 2012, 1980, 1973, 1968, 1961, 1953, 1899, 1897, 1889
Aerial Photographs	2020, 2016, 2012, 2009, 2006, 1998, 1993, 1982, 1974, 1968, 1963, 1956, 1950, 1948, 1939
Sanborn Maps	N/A

The earliest available topographic maps depict the Property as part of a larger area predominantly used for agricultural purposes. Two structures, presumably used for residential purposes, can be seen in the northern portion of the Property as early as 1889. The earliest available aerial imagery depicts the Property as part of a larger area occupied by orchards. The Covote Creek floodplain can be seen adjacently west of the Property. In 1939, neighborhood residential developments and commercial structures can be seen northwest of the Property. By 1961, topographic maps depict the development of the majority of the parcels surrounding the Property; however, the Property and adjacent parcels maintained agricultural land use. Several changes south of the Property occurred between 1956 and 1963 including the construction of residential developments, commercial/industrial warehouses, and several percolation ponds. Additionally, State Route 17 was constructed between 1956 and 1963 and ran adjacent to the western boundary of the Property. By 1968, the southern portion of the Property had been converted to a drive-in movie theatre while the northern portion of the Property remained as an orchard. By 1974, the drive-in movie theatre had extended to the northern portion of the Property. By 1993, the Property appears to no longer be in use as a drive-in movie theatre and no structures remain. The Property appears to remain vacant until it was developed to the present condition between 1998 and 2006.

2.2.2 City Directory

City Directories, published since the 18th century for major towns and cities, list the name of the resident or business associated with each address. A city directory search conducted by EDR is located in Appendix F.

Several LUST sites were identified within a ¼ mile radius of the Property. Each of the LUST sites identified near the Property have received Case Closure Letters.

Based on the distances to the identified database sites, regional topographic gradient, and the EDR findings, it is unlikely that the above-stated database sites pose an environmental risk to the Property. Properties that are on the "Orphan Summary" list appear to be located beyond the ASTM recommended radius search criteria.

2.4 REGULATORY AGENCY FILES AND RECORDS

The following agencies were contacted pertaining to possible past development and/or activity at the Property.

TABLE 2.4-1: Regulatory Agency Records

NAME OF AGENCY	RECORDS REVIEWED
City of Campbell Planning Department	We contacted the City of Campbell Planning Department on September 11, 2023, regarding environmental records for the Property. The Building and Planning Departments provided several documents regarding land use and zoning ordinances for previously proposed uses at the Property. However, these files do not pertain to the environmental condition of the Property.
Santa Clara County Department of Environmental Health	We contacted the Santa Clara County Department of Environmental Health (SCCDEH) on September 11, 2023, regarding environmental records for the Property. The Santa Clara County Department of Environmental Health provided several files pertaining to inspections at the Property. Several inspections conducted by SCCDEH between 2013 and 2017 resulted in violations and failures to comply with waste disposal and recycling procedures associated with technology R&D and manufacturing. Based on files provided it appears the violations and failures to comply were addressed with waste generation labels and documentation of material disposal.
Santa Clara County Fire Department	We contacted the Santa Clara County Fire Department on September 26, 2023, regarding environmental records for the Property. No response from the Santa Clara County Fire Department had been received at the time of report publication.

NAME OF AGENCY	RECORDS REVIEWED
Santa Clara County Assessor's Office	We reviewed online parcel maps provided by the Santa Clara County Assessor's Office. The property boundary and APNs provided in the EDR radius map report are consistent with the online parcel maps.
California State Water Resources Control Board	We reviewed GeoTracker, the website maintained by the State Water Resources Control Board, for files pertaining to the Property. No listings were found for the Property.
Department of Toxic Substances Control (DTSC)	We reviewed EnviroStor, the website maintained by DTSC, for files pertaining to the Property. No listings were found for the Property.

3.0 SITE RECONNAISSANCE

3.1 METHODOLOGY

We conducted a reconnaissance of the Property on September 13, 2023. The reconnaissance was performed by William Hunsdale, a staff engineer of ENGEO. The Property was viewed for hazardous materials storage, superficial staining or discoloration, debris, stressed vegetation, or other conditions that may be indicative of potential sources of soil or groundwater contamination. The Property was also checked for evidence of fill/ventilation pipes, ground subsidence, or other evidence of existing or preexisting underground storage tanks. Photographs taken during the site reconnaissance are presented in Figure 4.

The interiors of the Property were not accessed at the time of site reconnaissance

3.2 GENERAL SITE SETTING

At the time of site reconnaissance, the Property was occupied by various tenants across the four commercial spaces. The landscaping and parking lot across the Property appeared to be well maintained and in good condition. A walking trail and exercise equipment were observed along the eastern boundary of the Property and a fenced off storage area contained several storage containers was observed along the northern boundary of the Property. At the time of site reconnaissance, the Property was bounded by State Route 17 to the west, residential developments to the north and east, with Edith Morley Park and auto shops to the south.

3.3 EXTERIOR OBSERVATIONS

The following table summarizes our observations during the reconnaissance.

TABLE 4.3-1: Exterior Site Observations

FEATURE TYPE	OBSERVATIONS								
Structures	Four commercial structures were observed during the site reconnaissance.								
Hazardous Substances and Petroleum Products in Connection with Identified Uses	No hazardous substances or petroleum products were observed within the Property during the site reconnaissance.								
Storage Tanks (underground and above-ground)	No above-ground storage tanks or evidence of existing underground storage tanks were observed during the site reconnaissance.								

FEATURE TYPE	OBSERVATIONS								
Roads	There are three entrances to access the Property from Campbell Technology Parkway. The entrances are located along the southern boundary of the Property.								
Strong, Pungent, or Noxious Odors and Their Sources	No odors indicative of hazardous materials or petroleum material impacts were noted at the time of the reconnaissance.								
Standing Surface Water and Pools or Sumps Containing Liquids Likely to be Hazardous Substances or Petroleum Products	No pools of potentially hazardous liquid were observed within the Property at the time of our reconnaissance.								
Drums, Totes, and Intermediate Bulk Containers	No drums were observed on the Property at the time of the reconnaissance.								
Polychlorinated Biphenyls (PCBs) Containing Equipment	No potential PCB-containing equipment, including transformers, were observed within the Property during our site reconnaissance.								
Hazardous Substances and Petroleum Product Containers	No hazardous substance or petroleum product containers were observed on the Property at the time of our reconnaissance.								
Stains or Corrosion on Floors, Walls, or Ceilings (Except Water Staining)	No stains or corrosion on floors, walls, or ceilings were observed on the Property at the time of our reconnaissance.								
Drains and Sumps	No drains or sumps were observed within the Property at the time of our reconnaissance.								
Pits, Ponds, and Lagoons	No pits, ponds, or lagoons were observed within the Property at the time of our reconnaissance.								
Stained Soil/Pavement	No stained soil or pavement were observed within the Property at the time of our reconnaissance.								
Stressed Vegetation	No signs of stressed vegetation were observed on the Property at the time of our reconnaissance.								
Solid Waste/Debris	No disposal of solid waste was observed at the Property.								
Stockpiles/Fill Material	No stockpiles or fill material were observed on the Property during the reconnaissance.								
Wastewater	No wastewater conveyance systems were observed at the Property during the reconnaissance.								
Wells	No wells were found within the Property during our site reconnaissance.								
Septic Systems	No septic systems were found within the Property during our site reconnaissance.								

3.4 INTERIOR OBSERVATIONS

The interiors of the four commercial structures were not accessed at the time of site reconnaissance.

3.5 ASBESTOS, LEAD, AND PCB-CONTAINING MATERIALS

An asbestos, lead, and PCB-containing building material survey was not conducted as part of this assessment. Given the age of the existing structures, it is conceivable that asbestos, lead, and PCB-containing materials may exist within the structures.

4.0 INTERVIEWS

Mr. Stephen Randazzo completed a Client-based environmental site questionnaire pertaining to applicable environmental information regarding the Property on August 10, 2023. In the questionnaire, Mr. Randazzo did not identify potentially environmentally related issues with the Property. Mr. Randazzo is unaware of commonly known, reasonably ascertainable, or specialized knowledge indicative of releases or threatened releases that is material to the potential presence of RECs.

Mr. Randazzo has indicated that the purchase price of the Property is reflective of fair market value of the Property. The questionnaire is presented in its entirety in Appendix G.

Additionally, Mr. Randazzo completed a Key Site Manager-related environmental site questionnaire pertaining to applicable environmental information regarding the Property, on August 10, 2023. In the questionnaire, Mr. Randazzo did not identify potentially environmentally related issues with the Property.

Mr. Randazzo is unaware of commonly known, reasonably ascertainable, or specialized knowledge indicative of releases or threatened releases that is material to the potential presence of Recognized Environmental Conditions. The questionnaire is presented in its entirety in Appendix G.

5.0 AGRICHEMICAL SOIL ASSESSMENT

Review of historical records indicates that the Property has been used as agricultural land since at least the 1940's. Due to historical agricultural activities, an assessment of the surface soil was conducted to evaluate the potential for residual concentrations of OCPs, arsenic, and lead.

5.1 SOIL SAMPLING

Soil samples were collected on August 25, 2023, from 27 locations across the Property (Figure 2). Soil samples were collected from 6 to 12 inches, 18 to 24 inches, and 30 to 36 inches below the surface of the existing grade using a direct-push drill rig. Upon collection, samples were composited into six 4:1 samples and one 3:1 sample, and submitted to Torrent Laboratory for analysis of organochlorine pesticides (EPA Method 8081). A discrete sample from each composite (seven total) were analyzed for total arsenic and lead (EPA Method 6010). All samples collected at 18 to 24 inches and 30 to 36 inches bgs were held pending laboratory analysis of the samples collected from 6 to 12 inches bgs.

5.1 ANALYTICAL RESULTS

Review of laboratory analytical reports indicate trace levels of lead and arsenic were detected in each of the discrete shallow soil samples. All reported concentrations of lead were between 12.9 and 36.3 mg/kg, which is below the corresponding residential screening level of 80 mg/kg. All reported concentrations of arsenic were between 2.65 and 8.43 mg/kg, which is below the expected background concentration of 11 mg/kg for the San Francisco Bay Area.

Trace concentrations of OCPs were detected in each of the shallow composite samples. 4,4'-DDD was detected at concentrations between 0.0132 and 0.0387 mg/kg in composites SB-5,18,19,24, SB-11,12,13,14, and SB-8,9,10. 4,4'-DDE was detected at concentrations between 0.0144 and 0.112 mg/kg in each of the analyzed composite samples. 4,4'-DDT was detected at concentrations between 0.204 and 0.0084 mg/kg in composites SB-3,4,20,23 and SB-11,12,13,14. All reported concentrations of OCPs were detected below the corresponding residential ESLs

The laboratory report is presented in its entirety in Appendix H.

6.0 FINDINGS AND OPINIONS

This assessment included a review of local, state, tribal, and federal environmental record sources, standard historical sources, aerial photographs, fire insurance maps and physical setting sources. A reconnaissance of the Property was completed to review site use and current conditions to check for the storage, use, production, or disposal of hazardous or potentially hazardous materials and to conduct written/oral interviews with persons knowledgeable about current and past site use.

The site reconnaissance and records review did not find documentation or physical evidence of soil, soil gas, or groundwater impairments associated with the use or past use of the Property. A review of regulatory databases maintained by county, state, tribal, and federal agencies found no documentation of hazardous materials violations or discharge on the Property and did not identify contaminated facilities within the appropriate ASTM search distances that would reasonably be expected to impact the Property.

Based on the findings of this assessment, no RECs, no historical RECs, and no controlled RECs were identified for the Property.

Based on the review of regulatory databases and site reconnaissance, we present information on features of potential environmental concern that were either contained in the databases or observed on the Property. These features were not considered to be RECs. We briefly discuss each feature below.

6.1 SIGNIFICANT DATA GAPS

It is our opinion that the findings of this study are based on a sufficient level of information obtained during our contracted scope of services to render a conclusion as to whether additional appropriate investigation is required to identify the presence or likely presence of a REC. The following data gap was identified.

The buildings were locked and inaccessible during the site reconnaissance.

The data gap identified during this process does not affect the conclusions as to the presence or lack of presence of RECs at the Property.

6.2 SIGNIFICANT ASSUMPTIONS OR DEVIATIONS FROM ASTM STANDARD PRACTICE

There were no significant deviations from ASTM Standard Practice E1527-21 in the preparation of this report.

7.0 CONCLUSIONS

It is our opinion that the findings of this study are based on a sufficient level of information obtained during our contracted scope of services to render a conclusion as to whether additional appropriate investigation is required to identify the presence or likely presence of a REC.

We have performed a modified phase I environmental site assessment in general conformance with the scope and limitations of ASTM E1527-21 and the standards and practices of the All Appropriate Inquiry – Final Rule (40 Code of Federal Regulations Part 312) of APNs 412-29-010, 412-29-011, 412-29-012, and 412-29-015, the Property. Any exception to, or deletions from this practice are described in Section 8.1 of the report.

This assessment has revealed no evidence of RECs in connection with the Property. We recommend no further environmental studies at this time.

8.0 LIMITATIONS

8.1 LIMITATIONS AND EXCEPTIONS OF ASSESSMENT

The professional staff at ENGEO strives to perform its services in a proper and professional manner with reasonable care and competence but is not infallible. The recommendations and conclusions presented in this report were based on the findings of our study, which were developed solely from the contracted services. The findings of the report are based in part on contracted database research, out-of-house reports, and personal communications. The opinions formed by ENGEO are based on the assumed accuracy of the relied upon data in conjunction with our relevant professional experience related to such data interpretation. We assume no liability for the validity of the materials relied upon in the preparation of this report.

This document must not be subject to unauthorized reuse; that is, reuse without written authorization of ENGEO. Such authorization is essential because it requires ENGEO to evaluate the document's applicability given new circumstances, not the least of which is passage of time. The findings from a phase I environmental site assessment are valid for 1 year after from the earliest date of the following components: records review, site reconnaissance, interviews, declaration by environmental professional. Updates of portions of the assessment may be necessary after a period of 180 days of the earliest date of the four components.

A more extensive assessment that would include a subsurface exploration with laboratory testing of soil, soil gas, and groundwater samples could provide more definitive information concerning site-specific conditions. If additional assessment activities are considered for the Property and if other entities are retained to provide such services, ENGEO cannot be held responsible for any and all claims arising from or resulting from the performance of such services by other persons or entities. ENGEO can also not be held responsible from any and all claims arising or resulting from clarifications, adjustments, modifications, discrepancies or other changes necessary to reflect changed field or other conditions.

8.2 SPECIAL TERMS AND CONDITIONS

We have prepared this report for the exclusive use of our client, Campbell Technology Park, LLC. It is recognized and agreed that ENGEO has assumed responsibility only for undertaking the study for the Client. The responsibility for disclosures or reports to a third party and for remedial or mitigative action shall be solely that of the Client.

This phase I environmental site assessment is not intended to represent a complete soil, soil gas, or groundwater characterization, nor define the depth or extent of soil, soil gas, or groundwater contamination. It is intended to provide an evaluation of potential environmental concerns associated with the use of the Property. Laboratory testing of soil, soil gas, or groundwater samples was not within the scope of the contracted services. The assessment did not include an asbestos survey, an evaluation of lead-based paint, an inspection of light ballasts for polychlorinated biphenyls (PCBs), or a mold survey. A radon evaluation was not performed.

This report is based upon field and other conditions discovered at the time of preparation of ENGEO's assessment. Visual observations referenced in this report are intended only to represent conditions at the time of the reconnaissance. We would not be aware of site contamination, such as dumping and/or accidental spillage, that occurred subsequent to the reconnaissance conducted by ENGEO personnel.

Notes:

Results are shown in milligrams per kilogram (mg/kg).

ND indicates analyte was not detected above laboratory reporting limits.

 $<\!\!x.xx\ indicates\ analyte\ was\ not\ detected\ above\ the\ laboratory\ reporting\ limit\ of\ x.xx\ mg/kg.$

-- indicates analyte was not analyzed or screening level not established.

NA indicates analyte was not analyzed.

BOLD indicates the concentration was detected above laboratory reporting limits.

Highlighted values exceed residential screening criteria.

Highlighted values exceed commercial screening criteria.

Highlighted values exceed ten times the solubility threshold limit concentration (STLC) only.

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, LLC. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. This Report is provided on an "AS IS", "AS AVAILABLE" basis. NO WARRANTY EXPRESS OR IMPLIED IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, LLC AND ITS SUBSIDIARIES, AFFILIATES AND THIRD PARTY SUPPLIERS DISCLAIM ALL WARRANTIES, OF ANY KIND OR NATURE, EXPRESS OR IMPLIED, ARISING OUT OF OR RELATED TO THIS REPORT OR ANY OF THE DATA AND INFORMATION PROVIDED IN THIS REPORT, INCLUDING WITHOUT LIMITATION, ANY WARRANTIES REGARDING ACCURACY, QUALITY, CORRECTNESS, COMPLETENESS, COMPLETENESS, COMPREHENSIVENESS, SUITABILITY, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, NON-INFRINGEMENT, MISAPPROPRIATION, OR OTHERWISE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, LLC OR ITS SUBSIDIARIES, AFFILIATES OR THIRD PARTY SUPPLIERS BE LIABLE TO ANYONE FOR ANY DIRECT, INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL OR OTHER DAMAGES OF ANY TYPE OR KIND (INCLUDING BUT NOT LIMITED TO LOSS OF PROFITS, LOSS OF USE, OR LOSS OF DATA) INFORMATION PROVIDED IN THIS REPORT. Any analyses, estimates, ratings, environmental risk levels, or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction or forecast of, any environmental risk for any property. Only an assessment performed by a qualified environmental professional can provide findings, opinions or conclusions regarding the environmental risk or conditions in, on or at any property.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E2247 - 16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E1528 - 22) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

TARGET PROPERTY INFORMATION

ADDRESS

675 CAMPBELL TECHNOLOGY PARKWAY CAMPBELL, CA 95008

COORDINATES

Latitude (North): 37.2806480 - 37° 16' 50.33" Longitude (West): 121.9426830 - 121° 56' 33.65"

Universal Tranverse Mercator: Zone 10 UTM X (Meters): 593732.8 UTM Y (Meters): 4126326.2

Elevation: 208 ft. above sea level

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in **bold italics** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 06/22/2023 has revealed that there are 3 SEMS-ARCHIVE sites within approximately 0.5 miles of the target property.

Lists of Federal RCRA generators

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 07/24/2023 has revealed that there are 13 RCRA-SQG sites within approximately 0.25 miles of the target property.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 04/24/2023 has revealed that there are 5 ENVIROSTOR sites within approximately 1 mile of the target property.

Lists of state and tribal leaking storage tanks

LUST: Leaking Underground Storage Tank (LUST) Sites included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the LUST list, as provided by EDR, has revealed that there are 52 LUST sites within approximately 0.5 miles of the target property.

CPS-SLIC: Cleanup Program Sites (CPS; also known as Site Cleanups [SC] and formerly known as Spills, Leaks, Investigations, and Cleanups [SLIC] sites) included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the CPS-SLIC list, as provided by EDR, has revealed that there are 10 CPS-SLIC sites within approximately 0.5 miles of the target property.

HIST LUST: A listing of open and closed leaking underground storage tanks. This listing is no longer updated by the county. Leaking underground storage tanks are now handled by the Department of Environmental Health.

A review of the HIST LUST list, as provided by EDR, and dated 03/29/2005 has revealed that there are 36 HIST LUST sites within approximately 0.5 miles of the target property.

Lists of state and tribal registered storage tanks

UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the UST list, as provided by EDR, has revealed that there are 7 UST sites within approximately 0.25 miles of the target property.

Local Lists of Registered Storage Tanks

SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list

A review of the SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there are 20 SWEEPS UST sites within approximately 0.25 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 07/24/2023 has revealed that there are 74 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

FINDS: The Facility Index System contains both facility information and "pointers" to other sources of information that contain more detail. These include: RCRIS; Permit Compliance System (PCS); Aerometric Information Retrieval System (AIRS); FATES (FIFRA [Federal Insecticide Fungicide Rodenticide Act] and TSCA Enforcement System, FTTS [FIFRA/TSCA Tracking System]; CERCLIS; DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes); Federal Underground Injection Control (FURS); Federal Reporting Data System (FRDS); Surface Impoundments (SIA); TSCA Chemicals in Commerce Information System (CICS); PADS; RCRA-J (medical waste transporters/disposers); TRIS; and TSCA. The source of this database is the U.S. EPA/NTIS.

A review of the FINDS list, as provided by EDR, and dated 05/04/2023 has revealed that there is 1 FINDS site within approximately 0.001 miles of the target property.

PFAS ECHO: Regulators and the public have expressed interest in knowing which regulated entities may be using PFAS. EPA has developed a dataset from various sources that show which industries may be handling PFAS. Approximately 120,000 facilities subject to federal environmental programs have operated or currently operate in industry sectors with processes that may involve handling and/or release of PFAS.

A review of the PFAS ECHO list, as provided by EDR, and dated 03/30/2023 has revealed that there are 3 PFAS ECHO sites within approximately 0.25 miles of the target property.

CUPA Listings: A listing of sites included in the county's Certified Unified Program Agency database. California's Secretary for Environmental Protection established the unified hazardous materials and hazardous waste regulatory program as required by chapter 6.11 of the California Health and Safety Code. The Unified Program consolidates the administration, permits, inspections, and enforcement activities.

A review of the CUPA Listings list, as provided by EDR, has revealed that there are 95 CUPA Listings sites within approximately 0.25 miles of the target property.

DRYCLEANERS: A list of drycleaner related facilities that have EPA ID numbers. These are facilities with certain SIC codes: power laundries, family and commercial; garment pressing and cleaners' agents; linen supply; coin-operated laundries and cleaning; drycleaning plants except rugs; carpet and upholster cleaning; industrial launderers; laundry and garment services.

A review of the DRYCLEANERS list, as provided by EDR, has revealed that there is 1 DRYCLEANERS site within approximately 0.25 miles of the target property.

HAZNET: The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000-1,000,000 annually, representing approximately 350,000-500,000 shipments. Data from non-California manifests & continuation sheets are not included at the present time. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, & disposal method. The source is the Department of Toxic Substance Control is the agency. This database begins with calendar year 1993.

A review of the HAZNET list, as provided by EDR, and dated 12/31/2021 has revealed that there is 1 HAZNET site within approximately 0.001 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories

reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there is 1 EDR Hist Cleaner site within approximately 0.125 miles of the target property.

Environmental Interest/Information System:

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release

Inventory (TRI).

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many

types of information about generators, transporters, treaters,

storers, and disposers of hazardous waste.

Environmental Interest/Information System:

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release

Inventory (TRI).

Reclamation: Not reported POTW: Not reported

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order

should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to

represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as

cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as

dairy waste ponds.

Other/Unknown Eval General Type: Eval Date: 01-16-2020 Violations Found: No

Eval Type: Other, not routine, done by local agency

Eval Notes: On site to perform a permit investigation due to a returned invoice

> for West Valley Charter Lines. Upon arrival, it was observed that 240 Cristich Lane is in the process of demolition. After speaking to Dipak Mody, the project's Superintendent, the facility is undergoing asbestos and lead removal. Mr. Mody stated that second phase of the

project will consist of the removal of an underground storage tank.

The rebuild of the property, will be an office building for

Midpeninsula Open Space District. Currently, no permits are required with the Hazardous Materials Compliance Division. A copy of this report will be sent to the Project Manager Cesar Tomas to confirm this statement. Contact Information: Agbayani Construction Corp. Dipak Mody

Violation Date: 06-30-2016

Citation: 40 CFR 1 265.201(c)(3) - U.S. Code of Federal Regulations, Title 40,

Chapter 1, Section(s) 265.201(c)(3)

Violation Description: Failure to inspect hazardous waste tanks at least once each operating

day for the following, when present: (1) Discharge control equipment (e.g., waste feed cutoff systems, by-pass systems, and drainage systems) to ensure that it is in good working order; (2) Data gathered from monitoring equipment (e.g., pressure and temperature gauges) to ensure that the tank is being operated according to its design; (3)

The level of waste in the tank.

Violation Notes: Returned to compliance on 07/01/2016. Per facility, tank inspections

are conducted once a month. Begin inspecting the used oil tank daily.

Environmental Interest/Information System:

THE EMISSION INVENTORY SYSTEM (EIS) MAINTAINS AN INVENTORY OF LARGE STATIONARY SOURCES AND VOLUNTARILY-REPORTED SMALLER SOURCES OF AIR POINT POLLUTANT EMITTERS. IT CONTAINS INFORMATION ABOUT FACILITY SITES AND THEIR PHYSICAL LOCATION, EMISSIONS UNITS, EMISSIONS PROCESSES, RELEASE POINTS, CONTROL APPROACHES, AND REGULATIONS. FACILITY INVENTORY DATA ARE KEPT SEPARATE FROM THE EMISSIONS DATA AND HAVE STABLE IDENTIFIERS TO IMPROVE CONTINUITY FROM YEAR TO YEAR AND TO HELP **IDENTIFY DUPLICATE OR MISSING FACILITIES**

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many

types of information about generators, transporters, treaters,

storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Evaluation:

Eval General Type: Other/Unknown Eval Date: 02-23-2016

Violations Found: No

Other, not routine, done by local agency Eval Type:

Eval Notes: 216 Cristich Lane, Campbell, Images Auto Body to assess Hazardous

Waste Generator Classification. Images Auto Body, < 100 Kg per month. The permit will be adjusted to reflect this as a 2202. The Hazardous Waste Inventory, Waste Solvent, is not in the CERS Inventory Submittal. Please include the hazardous waste as part of the haz mat inventory. The 5 gallon container in the gun cleaning unit is not waste as the container feed line is fixed between generation and collection stages. The 35 gallon container is marked correctly with an ccumulation start date in 2012. About 15 gallons are now within the container. Both of these containers are scheduled to be picked up within the next several weeks. The 5 gallon containers that are empty of solvent are being re-purposed as liquid condensation collection containers. Once theses solvent containers are empty and free of

flammable vapors, and the labels are removed or obscured, they may be

used for the purposes [Truncated]

Violations:

Site ID: 95974

Site Name: AUTHENTIC FINISHING

Violation Date: 07-20-2016

Citation: 22 CCR 12 66262.11 - California Code of Regulations, Title 22, Chapter

12, Section(s) 66262.11

Violation Description: Failure to determine if wastes generated are hazardous waste by using

generator knowledge or applying testing method.

Violation Notes: Returned to compliance on 07/25/2016. 1. Observed the following solid

absorptive materials contaminated with paints in the dumpster: 1 saturated paint roller and paper paint filters 2. Paint booth filters and dust from vacuuming paint booth filters are currently disposed of in trash. 3. Rags observed around shop in step can, drying on concrete, and rags that will be used for staining Determine if each waste above is a hazardous waste, describe the contaminants of each and the reason for its determination, and explain how each material

will be managed.

Violation Division: Santa Clara County Environmental Health

Violation Program: HW Violation Source: CERS,

Site ID: 95974

Site Name: AUTHENTIC FINISHING

Violation Date: 07-20-2016

Citation: 40 CFR 1 265.32 - U.S. Code of Federal Regulations, Title 40, Chapter

1, Section(s) 265.32

Violation Description: Failure of the facility to maintain the following emergency equipment

or equivalents: 1) An internal communications or alarm system; 2) A device, such as a telephone (immediately available at the scene of Operations/ Maintenance) or a hand-held two-way radio, capable of summoning emergency assistance from local police departments, fire departments, or State or local emergency response teams; 3) Portable fire extinguishers, fire control equipment, spill control equipment,

and decontamination equipment; and 4) Water at adequate volume and pressure to supply water hose streams, or foam producing equipment, or

automatic sprinklers, or water spray systems.

Violation Notes: Returned to compliance on 07/25/2016. Facility does not have absorbent

to clean up spills of solvent. Keep absorbent on-site at all times to

clean up acetone spills when they occur.

EDR ID Number

Violations Found: Yes

Eval Type: Routine done by local agency

Eval Notes: Facility does wood finishing. Varnish is mixed with catalyst as needed

to avoid left over waste, most stains are applied with reusable sponges, and Mr. Ortega states that some special color stains are applied with rags that are managed as hazardous waste. The last shipment for this waste stream was in 2009, no stained rags were observed at the time of inspection, and facility does not currently have a container for this waste. Painting is done in a spray booth and filters are vacuumed and reused. Mr. Ortega was advised that dust from

spray booth and spray booth filters themselves may qualify as

hazardous waste when disposed. Guns are cleaned with acetone and all acetone waste is collected in 1x55 gallon container in the mixing room, at the point of generation, that is picked up annually as hazardous waste. Inspection included walk-through of staining area, mixing room, facility perimeter, inspection of dumpster, and review of

pickup manifests for waste acetone and waste [Truncated]

Citation: 22 CCR 12 66262.34(d) - California Code of Regulations, Title 22,

Chapter 12, Section(s) 66262.34(d)

Violation Description: Failure to send hazardous waste offsite for treatment, storage, or

disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month

if all of the following conditions are met: (1) The quantity of

hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount

greater than one kilogram for more than 90 days.

Violation Notes: Returned to compliance on 09/21/2016. Facility currently has the

following wastes which have been accumulating for longer than 180 days: 1 half full 55 gallon container of antifreeze (last picked up on 12/28/16) 1x300 gallon used oil tank with 23 inches of oil inside

Violation Date: 08-02-2016

Citation: 40 CFR 1 262.34(d)(5)(iii) - U.S. Code of Federal Regulations, Title

40, Chapter 1, Section(s) 262.34(d)(5)(iii)

Violation Description: Failure to ensure that all employees are thoroughly familiar with

proper waste handling and emergency procedures, relevant to their responsibilities during normal facility operations and emergencies.

Violation Notes: Returned to compliance on 01/26/2017. Nature and number of violations

indicated that facility employees are not adequately trained in

hazardous waste management. Mr. Frieden was given information on free

county training courses af the time of inspection.

Violation Division: Santa Clara County Environmental Health

Violation Program: HW Violation Source: CERS,

Site ID: 99232

Site Name: BLUE SPRUCE LANDSCAPE

Violation Date: 08-02-2016

Citation: 40 CFR 1 265.33 - U.S. Code of Federal Regulations, Title 40, Chapter

1, Section(s) 265.33

Violation Description: Failure to test and maintain as necessary all facility communications

or alarm systems, fire protection equipment, spill control equipment, and decontamination equipment to assure its proper operation in time

of emergency.

Violation Notes: Returned to compliance on 09/21/2016. Observed an emergency shower and

eyewash station that is not regularly tested. Begin testing this

station regularly to ensure that it functions.

Violation Division: Santa Clara County Environmental Health

Violation Program: HW
Violation Source: CERS,

Site ID: 99232

Site Name: BLUE SPRUCE LANDSCAPE

Violation Date: 08-02-2016

Citation: 40 CFR 1 265.31 - U.S. Code of Federal Regulations, Title 40, Chapter

1, Section(s) 265.31

Violation Description: Failure to maintain and operate the facility to minimize the

possibility of a fire, explosion, or any unplanned sudden or

non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water which could threaten human health or

the environment.

Violation Notes: Returned to compliance on 01/26/2017. Observed oily absorbent on the

ground next to waste oil tank, in the grate below this tank, and on the floor of work bays. Clean up all oily absorbent after used.

Eval Notes: Facility offers landscaping services and does small amounts of

painting. Facility generates waste paint thinner, used oil, used

antifreeze, oily absorbent and paper towels, waste gasoline, non-empty aerosol cans, and used oil filters. Brake jobs are not done on-site, facility does not have a parts washer, and fluorescent light tubes are disposed of as universal waste. Inspection included walk through of materials storage areas, outside lot, work bays, waste storage area. and inspections of trashcans. Receipts for waste oil, antifreeze, and

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Evaluation:

Eval General Type: Other/Unknown Eval Date: 03-12-2020

Violations Found: No

Eval Type: Other, not routine, done by local agency

Eval Notes:

On-site at 599 E McGLincy Lane Campbell, CA to conduct a permit investigation. The old tenant, Cambrian Go Karts is no longer at this location, and the current tenant is West Valley Construction. Ron Ormonde, Tool & Facilities Manager gave a walk-through of the

facility. West Valley Construction uses this facility to store

construction equipment and parts. No hazardous materials were observed at this facility. Based on my observations, West Valley Construction will not require a permit from our office at this time. Contact: Ron

Ormonde, Tool & Facilities Manager 408-968-8087 ROrmonde@wvcc.com

Eval Division: Santa Clara County Environmental Health

Eval Program: HW Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection

Eval Date: 08-26-2013 Violations Found: No

Eval Type: Routine done by local agency

Eval Notes: ON SITE FOR THE 2013 HAZARDOUS WASTE INSPECTION RYAN MILLER ON SITE TO

PROVIDE ACCESS TO STORAGE AND SHOP AREA. SHOP AREA IS CLEAN AND ORDERLY. ENGINES ARE ALL 2 STROKE AIR COOLED SMALL ENGINES WITHOUT CRANK CASE OILS OR LIQUID COOLANTS. WASTE IS GENERATED WHEN REMOVING FUEL OIL MIXTURE FROM FUEL TANKS OF GO-CARTS BEING SERVICED. WASTE FUEL/OIL MIXTURES ARE COLLECTED IN A 55 GALLON DRUM. THE DRUM BEING

USED WAS OBSERVED WITHOUT A HAZARDOUS WASTE LABEL. ASOCIATED PAPERWORK

OR HAZ WASTE RECORDS WHERE NOT AVAILABLE AT THE TIME OF INSPECTION.

LABELS AND GUIDELINES PROVIDED TO RYAN MILLER WHILE ON SITE.

Environmental Interest/Information System:

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), and Toxic Release Inventory (TRI).

California's Hazardous Waste Tracking System Data Mart (HWTS-DATAMART) provides information on hazardous waste shipments for generators,

transporters, and treatment, storage, and disposal facilities. The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Eval Division: Santa Clara County Environmental Health

Eval Program: HW Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection

Eval Date: 08-21-2017 Violations Found: Yes

Eval Type: Routine done by local agency

Eval Notes: Site is Conditionally Exempt - Specified Wastestream authorized for

the separation of oily water. Utilize a 4 stage clarifier for

separation of sludge and oil from wash rack. Wash area used to clean trucks and heavy equipment, including removal of asphalt and greases.

Site has done testing of waste and has determined that waste

(comingled) should be managed as hazardous waste, not used oil. Have procedure for removal of waste, generally isolate a section of clarifier, decant water and drain all free product oil and sludge to drums for disposal. System, as flow through, does not really have a operating instruction or log, and as underground flow through, does not lend itself to routine inspection. Site is SQG, so tank assessment

standards do not apply outside of 40CFR270 requirements. Discharge

permit in good standing

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters,

storers, and disposers of hazardous waste.

Section(s) 25160.2

Violation Description: Failure of a generator of hazardous waste that meets the conditions to

be transported on a consolidated manifest to comply with one or more

of the required consolidated manifesting procedures.

Violation Notes: Returned to compliance on 08/02/2016. Facility owner states that

antifreeze was disposed of on 4/18/16 but antifreeze is not listed separately from used oil on receipt. Ensure that all wastes are listed separately regardless of amounts shipped. Facility was missing the shipping document portion for the waste disposal receipt of aqueous waste shipped on 4/13/16 by SafetyKleen. Ensure that this portion of the receipt is retained in the future and obtain a copy for the date

listed.

Citation: 22 CCR 12 66262.11 - California Code of Regulations, Title 22, Chapter

12, Section(s) 66262.11

Violation Description: Failure to determine if wastes generated are hazardous waste by using

generator knowledge or applying testing method.

Returned to compliance on 08/02/2016. Facility currently disposes of Violation Notes:

> paint filters in trash. Filters are changed once a month. Determine if filters are hazardous waste using generator knowledge or by having the waste analyzed. Paints may contain one of 17 regulated metals that may make filters hazardous even when dry. Describe reasoning for hazardous

waste determination.

Eval Type: Routine done by local agency

Eval Notes:

On-site to conduct a hazardous waste generator inspection. Also present during this inspection is Hunter Dang, Environmental Health Specialist Trainee with the Department of Environmental Health. Facility is an auto body shop that generates waste from paint and body shop operations, primarily waste solvent based and water based paint, paint thinners/cleaners, solids contaminated with paint, and bondo dust and solids contaminated with bondo dust. Facility also generates used oil and waste antifreeze when it is necessary to drain vehicle

fluids prior to auto body work. Auto repair activities are not performed at this site. Facility generates waste aerosols and universal waste batteries. Waste aerosols are managed both as universal waste and hazardous waste. Paint shop consists of one paint mixing room, prep area, hazardous waste storage area and paint booth. Leftover paint is disposed of as hazardous waste and the paint liner

is managed as hazardous waste. Thinner and [Truncated]

Eval Notes: Facility is an auto body shop that does auto body work but does not do

auto repair. Facility generates the following wastes: spent batteries (core exchange), oily absorbent, non-empty aerosol cans, spent fluorescent tubes, solvent-based paint waste (sludge from distiller), waterborne paint waste, empty paint cans (scraped clean), and oily water from a clarifier. Facility generates irregular and small amounts of used oil, used antifreeze, and used oil filters (2 observed). Facility does not generate oily rags, brake fluid, parts washing solution, spent gasoline, or spent bead blast media. Facility does not use paper paint filters (mesh screen is built into paint cups) and paint cups and containers in trash were empty. Paint booth filters are changed monthly and disposed of to trash as non-hazardous. Inspection included walk-through of all work bays, storage area behind paint booth, waste storage area outside, parking lot perimeter, inspection

of trashcans/dumpsters, and [Truncated]

CERS Description: Hazardous Waste Generator

Violations:

Site ID: 17874

Site Name: CG AUTOMOTIVE Violation Date: 07-18-2016

Citation: 22 CCR 12 66262.11 - California Code of Regulations, Title 22, Chapter

12, Section(s) 66262.11

Violation Description: Failure to determine if wastes generated are hazardous waste by using

generator knowledge or applying testing method.

Violation Notes: Returned to compliance on 10/17/2016. Observed several old 1 gallon

containers of various paints and solvents on shelves in waste storage area. Determine it these containers hold hazardous waste and respond manage them accordingly. Response to report should include information

Distance EDR ID Number
Elevation Site EPA ID Number

S112345539

on how the containers will be managed.

Violation Division: Santa Clara County Environmental Health

Violation Program: HW Violation Source: CERS,

Site ID: 17874

Site Name: CG AUTOMOTIVE Violation Date: 07-18-2016

Citation: 22 CCR 12 66262.12 - California Code of Regulations, Title 22, Chapter

12, Section(s) 66262.12

Violation Description: Failure to obtain an Identification Number prior to treating, storing,

disposing of, transporting or offering for transportation any

hazardous waste.

Violation Notes: Returned to compliance on 10/17/2016. EPA ID number CAL931095471 is

currently inactive. Mr. Gerbasi completed DTSC form 1358 during the inspection and agreed to send this form to DTSC and to ensure this number will be used on all hazardous waste pickup manifests.

Violation Division: Santa Clara County Environmental Health

Violation Program: HW Violation Source: CERS,

Site ID: 17874

Site Name: CG AUTOMOTIVE

Violation Date: 07-18-2016

Citation: HSC 6.5 25201(a) - California Health and Safety Code, Chapter 6.5,

Section(s) 25201(a)

Violation Description: Failure to dispose of hazardous waste at a facility which has a permit

from DTSC or disposing of hazardous waste at any point which is not

authorized according to this chapter.

Violation Notes: Returned to compliance on 10/17/2016. Mr. Gerbasi stated that brake

shavings are currently being used as fertilizer for his garden. Brake shavings less than 100 microns must be managed as hazardous waste and kept in a closed and labeled container. Brake shavings larger than this size may be managed as scrap metal. Immediately cease disposing

of brake shavings to the land or to trash.

Violation Division: Santa Clara County Environmental Health

Violation Program: HW Violation Source: CERS,

Site ID: 17874

Site Name: CG AUTOMOTIVE Violation Date: 07-18-2016

Citation: HSC 6.5 Multiple - California Health and Safety Code, Chapter 6.5,

Section(s) Multiple

Violation Description: Hazardous Waste Generator Program - Administration/Documentation -

General

Violation Notes: Returned to compliance on 10/17/2016. MISMANAGEMENT OF USED OIL Mr.

Gerbasi stated that brake fluid is mixed with used oil and disposed of as used oil. Per Health and Safety Code section 25250.7 (a) ,"no person who generates, stores, or transfers used oil shall

intentionally contaminate used oil with other hazardous waste other than minimal amounts of vehicle fuel". CORRECTIVE ACTION: Immediately

cease mixing brake fluid and used oil. Begin collecting used brake fluid in a separate, closed hazardous waste container with a proper

hazardous waste label.

Evaluation:

Eval General Type: Compliance Evaluation Inspection

Eval Date: 07-18-2016 Violations Found: Yes

Eval Type: Routine done by local agency

Eval Notes: Facility is an auto repair shop that does not do auto body work.

> Facility generates the following wastes: spent batteries (core exchange), oily absorbent (none observed), non-empty aerosol cans (none observed), spent fluorescent tubes (recycled), used oil, used antifreeze, used oil and fuel filters, and oily rags (commercially laundered). Parts washing machine is topped off with fluid but does not require replacing, according to Mr. Gerbasi. Inspection included walk-through of all work bays, storage closet next to shop, oil filters waste storage area outside, parking lot perimeter, inspection of trashcans/dumpsters, and review of manifests for used oil, used antifreeze, used oil filters, and bills of lading for battery core

> exchanges and rag service. Fire extinguishers are annually serviced, aisle space is adequate, employees are trained by Mr. Gerbasi, and waste drums are inspected weekly. The following violations were

corrected at the time of inspection: G020 Marking [Truncated]

CERS Description: Hazardous Waste Generator

Evaluation:

Eval General Type: Compliance Evaluation Inspection

Eval Date: 06-29-2016

Violations Found: No

Eval Type: Routine done by local agency

Eval Notes: On site to conduct a routine hazardous waste inspection. Facility is a

painting contractor that only works with latex paints. Latex paints leftover from projects are stored in the warehouse and collected every 6 months by the California Paint Care Program. Fire extinguishers have had annual maintenance. Bills of lading were reviewed for latex paint

recycling.

Violation Date: 07-20-2016

22 CCR 12 66262.11 - California Code of Regulations, Title 22, Chapter Citation:

12, Section(s) 66262.11

Violation Description: Failure to determine if wastes generated are hazardous waste by using

generator knowledge or applying testing method.

Violation Notes: Returned to compliance on 08/02/2016. 1.) Facility occasionally

> generates saturated rags that may contain water based stain or traditional stains. If these rags are saturated with hazardous wastes they may not be intentionally dried and should not be laundered at a facility without a proper permit. 2.) Facility uses durafoam

applicator heads (made of absorptive material) to apply finish to floor. Heads are stored in thinner until they are reused. Facility generates about 20 spent heads in a year. Currently heads are thrown

in trash. 3.) Facility also occasionally has hardened epoxy or fast-drying product leftover from field jobs. Observed 1x2 gallons of hardened Sika MB primer in trash during inspection. No materials may Map ID MAP FINDINGS
Direction

Distance

Elevation Site Database(s) EPA ID Number

Violation Date: 07-20-2016

Citation: 40 CFR 1 265.31 - U.S. Code of Federal Regulations, Title 40, Chapter

1, Section(s) 265.31

Violation Description: Failure to maintain and operate the facility to minimize the

possibility of a fire, explosion, or any unplanned sudden or

non-sudden release of hazardous waste or hazardous waste constituents

to air, soil, or surface water which could threaten human health or

the environment.

Violation Notes: Returned to compliance on 08/02/2016. Facility had some hardened waste

caked in layers in the transfer funnel, on top of waste containers, in secondary containment, and in drip pan where funnel is stored. Use appropriately sized funnels to prevent spilling or clean up spills when they occur to minimize the possibility of fire or release to the

environment.

Violation Description: Hazardous Waste Generator Program - Administration/Documentation -

General

Violation Notes: Returned to compliance on 08/02/2016. No response to the 2010

inspection was received by our office. Mr. Lambert corrected the marking violation and responded in writing to the 2010 report during

today's inspection.

Violation Division: Santa Clara County Environmental Health

Violation Program: HW Violation Source: CERS,

Evaluation:

Eval General Type: Compliance Evaluation Inspection

Eval Date: 07-20-2016 Violations Found: Yes

Eval Type: Routine done by local agency

Eval Notes: Facility finishes hardwood floors and stores epoxies, water-based and

traditional stains and finishes, paint thinner, and paint thinner waste. Inspection included walk-through of facility waste storage shed, epoxy storage area, inspection of trashcans, and review of waste drop-off receipts from the household hazardous waste collection facility in Santa Clara County. Facility has an active EPA ID number, adequate spill absorbent, and annually serviced fire extinguishers. The following violations were corrected at the time of inspection:

Map ID MAP FINDINGS

EDR ID Number

G020 Marking of hazardous waste: Observed 2x1 quart unmarked containers of thinner waste and one container with an incorrect date from 2012. Labels are preprinted with improper date and records show the last waste drop-off in 2015. Mr. Lambert fixed the incorrect date and consolidated wastes into a properly labeled container. G114 Emergency Aisle Space: One fire extinguisher was blocked by equipment.

Mr. Lambert moved this equipment [Truncated]

Eval Division: Santa Clara County Environmental Health

Eval Program: HW Eval Source: CERS,

Eval General Type: Other/Unknown Eval Date: 04-09-2019

Violations Found: No

Eval Type: Other, not routine, done by local agency

Eval Notes: Conducted a limited inspection along with Ashley Ryder from this

office at the request of Mr. Lambert to verify the site's hazardous waste generator status. Mr. Lambert explained that his industry and specifically his business has made several improvements in hazardous waste minimization for floor refinishing. Mr. Lambert provided over 3-yrs of disposal receipts via the County's Small Business Hazardous Waste Program. Included in the disposal receipts folder was a record of contacting this office to reduce the hazardous waste permit. Given the documentation I observed during the inspection, Lambert & Sons Floor Covering has routinely generated less than 27 gallons per year and their hazardous waste program permit will be changed from 2205 to 2202. In addition, I am authorizing Lambert & Sons Floor Covering to short pay invoice #IN1170428 by \$261.00 for an invoice total of \$595.00. No adjustments will be made to the County Fire Department's

Nonhalogenated Solvents; And All Spent Solvent Mixtures/Blends
Containing, Before Use, One Or More Of The Above Nonhalogenated
Solvents, And A Total Of Ten Percent Or More (By Volume) Of One Or
More Of Those Solvents Listed In F001, F002, F004, And F005; And Still
Bottoms From The Recovery Of These Spent Solvents And Spent Solvent

Mixtures.

Waste Code: F005

Waste Description: The Following Spent Nonhalogenated Solvents: Toluene, Methyl Ethyl

Ketone, Carbon Disulfide, Isobutanol, Pyridine, Benzene,

2-Ethoxyethanol, And 2-Nitropropane; All Spent Solvent Mixtures/Blends Containing, Before Use, A Total Of Ten Percent Or More (By Volume) Of One Or More Of The Above Nonhalogenated Solvents Or Those Solvents Listed In F001, F002, Or F004; And Still Bottoms From The Recovery Of

These Spent Solvents And Spent Solvent Mixtures.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters,

types of information about generators, transporter

storers, and disposers of hazardous waste.

<u>Click this hyperlink</u> while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many

types of information about generators, transporters, treaters,

storers, and disposers of hazardous waste.

<u>Click this hyperlink</u> while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).

California's Hazardous Waste Tracking System Data Mart (HWTS-DATAMART) provides information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

THE EMISSION INVENTORY SYSTEM (EIS) MAINTAINS AN INVENTORY OF LARGE STATIONARY SOURCES AND VOLUNTARILY-REPORTED SMALLER SOURCES OF AIR POINT POLLUTANT EMITTERS. IT CONTAINS INFORMATION ABOUT FACILITY SITES AND THEIR PHYSICAL LOCATION, EMISSIONS UNITS, EMISSIONS PROCESSES, RELEASE POINTS, CONTROL APPROACHES, AND REGULATIONS. FACILITY INVENTORY DATA ARE KEPT SEPARATE FROM THE EMISSIONS DATA AND HAVE STABLE IDENTIFIERS TO IMPROVE CONTINUITY FROM YEAR TO YEAR AND TO HELP IDENTIFY DUPLICATE OR MISSING FACILITIES

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters.

storers, and disposers of hazardous waste.

Registry ID: 110055847240

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).

The California Environmental Reporting System (CERS) is a statewide web-based user and information exchange system to support over 140,000 regulated businesses and over 130 local agencies in electronically collecting and reporting significant hazardous materials, hazardous waste and compliance and enforcement data as mandated by California law. Under oversight by Cal/EPA, certified local governing agencies (Unified Program Agencies - UPAs) consolidate, coordinate and provide consistent regulatory activities for six state and federal environmental programs.

Violation Date: 06-21-2016

Citation: 40 CFR 1 265.31 - U.S. Code of Federal Regulations, Title 40, Chapter

1, Section(s) 265.31

Violation Description: Failure to maintain and operate the facility to minimize the

possibility of a fire, explosion, or any unplanned sudden or

non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water which could threaten human health or

the environment.

Violation Notes: Returned to compliance on 07/12/2016. Observed free flowing amounts of

used oil in the secondary containment for used oil. Ensure that secondary containment is clean and free of used oil to prevent the

possibility of an unplanned release into the environment.

Citation: 22 CCR 12 66262.34(d) - California Code of Regulations, Title 22,

Chapter 12, Section(s) 66262.34(d)

Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200

disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month

if all of the following conditions are met: (1) The quantity of

hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount

greater than one kilogram for more than 90 days.

Violation Notes: Returned to compliance on 07/12/2016. Start date on 2 x 55 gallon

drums of used oil is 12/3/15. As a small quantity generator your

accumulation time limit is 180 days.

Violation Division: Santa Clara County Environmental Health

Environmental Interest/Information System:

THE EMISSION INVENTORY SYSTEM (EIS) MAINTAINS AN INVENTORY OF LARGE STATIONARY SOURCES AND VOLUNTARILY-REPORTED SMALLER SOURCES OF AIR POINT POLLUTANT EMITTERS. IT CONTAINS INFORMATION ABOUT FACILITY SITES AND THEIR PHYSICAL LOCATION, EMISSIONS UNITS, EMISSIONS PROCESSES, RELEASE POINTS, CONTROL APPROACHES, AND REGULATIONS. FACILITY INVENTORY DATA ARE KEPT SEPARATE FROM THE EMISSIONS DATA AND HAVE STABLE IDENTIFIERS TO IMPROVE CONTINUITY FROM YEAR TO YEAR AND TO HELP **IDENTIFY DUPLICATE OR MISSING FACILITIES**

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

DE LONGS AUTOMOTIVE (Continued)

S121738938

Violation Description: Failure to send hazardous waste offsite for treatment, storage, or

disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month

if all of the following conditions are met: (1) The quantity of

hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount

greater than one kilogram for more than 90 days.

Violation Notes: Returned to compliance on 07/18/2018. Observed 1 x 55 gal drum of used

coolant with an accumulation start date of 5/20/2016. Per Mr. Orsua, no pick-ups have occurred since moving in to this location. As a small

quantity generator, the accumulation time limit is 180 days.

Violation Division: Santa Clara County Environmental Health

Violation Program: HW Violation Source: CERS,

Site ID: 110615

Site Name: DE LONGS AUTOMOTIVE

Violation Date: 07-12-2018

Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22,

Chapter 12, Section(s) 66262.34(f)

Violation Description: Failure to properly label hazardous waste accumulation containers and

portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical

characteristics of the Hazardous Waste, and starting accumulation

date.

Violation Notes: Returned to compliance on 07/18/2018. Observed the following hazardous

waste containers with incomplete markings: - 2 x 55 gal drums of used oil missing the accumulation start date and generator information - 1

x 15 gal used oil roller missing complete markings

Citation: 22 CCR 12 66262.12 - California Code of Regulations, Title 22, Chapter

12, Section(s) 66262.12

Violation Description: Failure to obtain an Identification Number prior to treating, storing,

disposing of, transporting or offering for transportation any

hazardous waste.

Violation Notes: Returned to compliance on 07/18/2018. EPA ID: CAL000409210 is

inactive. DTSC Form 1358 was provided at the time of inspection.

Violation Division: Santa Clara County Environmental Health

Violation Program: HW Violation Source: CERS,

Evaluation:

Eval General Type: Compliance Evaluation Inspection

Eval Date: 07-12-2018 Violations Found: Yes

Eval Type: Routine done by local agency

Eval Notes: On-site with Michelle Santos of HMCD to perform a routine hazardous

waste inspection. Business does automotive repair. A walk-through of the facility was conducted with owner, Dell Orsua. The following

Direction
Distance

Elevation Site Database(s) EPA ID Number

DE LONGS AUTOMOTIVE (Continued)

S121738938

EDR ID Number

hazardous waste streams were observed: - used oil: 2 x 55 gal drums + 1 x 15 gal roller (empty) - used coolant: 1 x 55 gal drum - used oil filters: 1 x 55 gal drum Fire extinguisher had annual maintenance performed on 6/18/18. Spill control was available. Weekly inspections are being conducted. Employee training is being conducted by Mr. Orsua. Rags are commercially laundered by Aramark. Battery cores are managed by Interstate. Disposal records were reviewed. The following violations were corrected at the time of inspection: G211: EMERGENCY INFORMATION POSTED: SQG [3010022] Notes: - No brake lathing is done at this location. - Aerosol cans are completely used before being thrown

in the trash. - Contact email: djsperformance@hotmail.com

Violation Date: 10-28-2021

Citation: HSC 6.5 25250.22 - California Health and Safety Code, Chapter 6.5,

Section(s) 25250.22

Violation Description: Failure to properly manage used oil and/or fuel filters in accordance

with the requirements.

Violation Notes: Returned to compliance on 11/21/2021. Observed a 55 gallon drum

containing the drained used oil filter has an accumulation start date

of 7-10-2020.

Violation Division: Santa Clara County Environmental Health

Violation Program: HW Violation Source: CERS,

Site ID: 115067

Site Name: EUROTECH TUNING

Violation Date: 05-10-2016

Citation: 22 CCR 16 66266.130 - California Code of Regulations, Title 22,

Chapter 16, Section(s) 66266.130

Violation Description: Failure to properly handle, manage, label, and recycle used oil and

fuel filters.

Violation Notes: Returned to compliance on 07/08/2016. Observed 1 x 55 gallon drum of

used oil filters that had metal and paper filters commingled. Paper filters cannot be recycled for their metal content and must be managed

separately as hazardous waste.

Violation Date: 05-10-2016

Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22,

Chapter 12, Section(s) 66262.34(f)

Violation Description: Failure to properly label hazardous waste accumulation containers with

the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous

Waste, and starting accumulation date.

Violation Notes: Returned to compliance on 07/08/2016. 1 x 30 gallon drum of used

coolant was missing generator information markings 1 x 15 gallon used oil roller was missing hazardous waste markings 1 x 5 gallon container

of used oil was missing hazardous waste markings

Violation Division: Santa Clara County Environmental Health

Violation Program: HW Violation Source: CERS,

Site ID: 115067

Site Name: EUROTECH TUNING

Violation Date: 10-28-2021

Citation: 22 CCR 12 66262.11 - California Code of Regulations, Title 22, Chapter

12, Section(s) 66262.11

Violation Description: Failure to determine if wastes generated are hazardous waste by using

generator knowledge or applying testing method.

Violation Notes: Returned to compliance on 11/21/2021. Observed a mop bucket containing

a pink colored mixture in the shop. The mixture is a combination of 1 part degreaser and 20 part water. The concentrate was labeled as corrosive and contained Sodium Hydroxide. Make a hazardous waste determination on the mop water by either using generator knowledge or having it tested by a Registered CA Environmental Lab for Corrosivity.

Site ID: 115067

Site Name: EUROTECH TUNING

Violation Date: 10-28-2021

Citation: 22 CCR 11 66261.7 - California Code of Regulations, Title 22, Chapter

11, Section(s) 66261.7

Violation Description: Failure to manage empty containers greater than 5 gallons in capacity

that previously held a hazardous material/waste in accordance with 22 CCR 11 66261.7 including but not limited to the following: (e)(2)By reclaiming its scrap value onsite or shipping the container or inner

liner to a person who reclaims its scrap value; or (3) By

reconditioning or re manufacturing the container or inner liner onsite for subsequent reuse, or shipping the container or inner liner to a person who reconditions or re-manufactures the container or inner liner; or (4) By shipping the container or inner liner to a supplier or to another intermediate collection location for accumulation prior to managing the container or inner liner pursuant to subsections (e)(2) or (e)(3) of 22 CCR 11 66261.7; or (i) By shipping the container or inner liner back to the supplier for the purpose of being

(e)(2) or (e)(3) of 22 CCR 11 66261.7; or (i) By shipping the container or inner liner back to the supplier for the purpose of being refilled. (f) A container or an inner liner removed from a container larger than five gallons in capacity which is managed pursuant to subsection (e) of 22 CCR 11 66261.7 shall be marked with the date it has been emptied and shall be managed within one year of being

emptied.

Violation Notes: Returned to compliance on 11/21/2021. Observed a 1 quart plastic

container of new oil in a trash can within the shop. A pourable stream of new oil was observed when the quart container was flipped over.

Evaluation:

Eval General Type: Compliance Evaluation Inspection

Eval Date: 10-28-2021 Violations Found: Yes

Eval Type: Routine done by local agency

Eval Notes: An onsite routine Hazardous Waste Generator inspection was conducted

on 10-28- 2021. Also present at the inspection was Ethan McDermott, Hazardous Materials Specialist. This business is an foreign automotive repair and service facility. The facility's State EPA Identification is active. EPA ID#: CAL000414857. - Fire extinguishers were last serviced on October 2020. - Absorbent was available for spill control. - Emergency Notification information was posted on the shop wall right outside of the office. - Consolidated manifest were reviewed in the office. - Linen Service was provided by Mission Uniform. - Battery core service provided by WorldPak. - The onwer stated that inspections of hazardous waste areas are conducted daily. - Metal shaving from turned rotors will be saved for metal recycling. The following waste streams items were noted at the inspection: Used Oil: 2x 55 gallon drum Used Oil Roller: 1x 30 gallon drum Drain Used Oil Filter: 1x55

[Truncated]

Eval Division: Santa Clara County Environmental Health

Eval Program: HW Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection

Eval Date: 05-10-2016 Violations Found: Yes

Eval Type: Routine done by local agency

Eval Notes: On site to conduct a routine hazardous waste inspection. Facility is

an auto repair shop with 1 service bay. Observed the following wastes on site: 2 x 55 gallon drum of used oil 1 x 30 gallon drum of used coolant 1 x 55 gallon drum of used oil filters 1 x 5 gallon container of used oil Fire extinguishers have had annual maintenance Spill control is available on site Rags are managed by Mission Linen Battery cores are managed by WorldPac Brake shavings are managed as scrap metal and recycled Container areas are inspected weekly Employees have had hazardous waste training through the County's classes Emergency information is posted on site EPA ID # CAL000414857 is active Disposal receipts for used oil, used coolant, and used oil filters were

reviewed. The following violations were corrected on site: 2 x 55 gallon drums of used oil were missing the hazardous properties marking. These markings were added during inspection.

WALT'S AUTOMOTIVE (Continued)

S121792847

Violation Notes: Returned to compliance on 10/17/2018. Per facility, mop is used for

spills and no container for oily water was observed on-site. A

Hazardous Waste Determination must be made. If found to be hazardous,

the mop water must be properly managed as a hazardous waste.

Violation Division: Santa Clara County Environmental Health

Violation Program: HW Violation Source: CERS,

Site ID: 84620

Site Name: WALT'S AUTOMOTIVE

Violation Date: 09-26-2018

Citation: 40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter

1, Section(s) 265.173

Violation Description: Failure to meet the following container management requirements: (a) A

container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste. (b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to

leak.

Violation Notes: Returned to compliance on 10/17/2018. Observed 3 x 55 gal drums of

used oil and 1 x 55 gal drum of used coolant as open during

inspection, while waste was not actively being added. Mr. Nehse stated

that it is currently not their practice to close the containers.

Violation Division: Santa Clara County Environmental Health

Violation Program: HW Violation Source: CERS,

Site ID: 84620

Site Name: WALT'S AUTOMOTIVE

Violation Date: 09-26-2018

Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22,

Chapter 12, Section(s) 66262.34(f)

Violation Description: Failure to properly label hazardous waste accumulation containers and

portable tanks with the following requirements: "Hazardous Waste",

name and address of the generator, physical and chemical

characteristics of the Hazardous Waste, and starting accumulation

date.

Violation Notes: Returned to compliance on 10/17/2018. The following hazardous waste

containers were observed with missing or incomplete markings: - 1 \times 30 gal drum of waste paper filters: missing generator information, the words "Hazardous Waste", accumulation start date, hazardous

properties, and physical state; THIS WAS CORRECTED ON-SITE. - 3 used

oil rollers: missing hazardous waste markings - 1 x 55 gal drum of waste coolant: label missing generator information, physical state, and hazardous properties - 3 x 55 gal drums of used oil: 1 had no hazardous waste markings, 2 had illegible labels Extra labels were

provided.

Generator inspection. Walt's Automotive does auto repair. A walk-through of the facility was conducted with owner, Walt Nehse. The following hazardous waste streams were observed: Drained, Used Oil Filters: 1 x 55 gal drum Paper Filters: 1 x 30 gal drum Used Oil: 3 x 55 gal drums + 3 x 15 gal rollers Waste Coolant: 1 x 55 gal drum (point of generation) 1 Parts Washer State ID: CAL00077892 is inactive. Documentation of recent efforts to reactivate this ID were provided. Observed metal lathe on-site. Mr. Nehse stated that the brake shavings are collected and transferred to the drained, used oil filters drum. Fire extinguishers have been annually serviced. Current Emergency Information was observed as posted. Shop rags and uniforms are commercially laundered by Cintas. Wet vacuum is used for spill control. Per Mr. Nehse, container area inspections are conducted daily. Battery core exchanges [Truncated]

Environmental Interest/Information System:

California's Hazardous Waste Tracking System Data Mart (HWTS-DATAMART)

provides information on hazardous waste shipments for generators,

transporters, and treatment, storage, and disposal facilities.

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the

Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many

types of information about generators, transporters, treaters,

storers, and disposers of hazardous waste.

Environmental Interest/Information System:

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).

THE EMISSION INVENTORY SYSTEM (EIS) MAINTAINS AN INVENTORY OF LARGE STATIONARY SOURCES AND VOLUNTARILY-REPORTED SMALLER SOURCES OF AIR POINT POLLUTANT EMITTERS. IT CONTAINS INFORMATION ABOUT FACILITY SITES AND THEIR PHYSICAL LOCATION, EMISSIONS UNITS, EMISSIONS PROCESSES, RELEASE POINTS, CONTROL APPROACHES, AND REGULATIONS. FACILITY INVENTORY DATA ARE KEPT SEPARATE FROM THE EMISSIONS DATA AND HAVE STABLE IDENTIFIERS TO IMPROVE CONTINUITY FROM YEAR TO YEAR AND TO HELP IDENTIFY DUPLICATE OR MISSING FACILITIES

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many

types of information about generators, transporters, treaters,

storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access

additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access

additional FINDS: detail in the EDR Site Report.

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order

> should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to

represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as

cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as

dairy waste ponds.

Citation: 40 CFR 1 265.174 - U.S. Code of Federal Regulations, Title 40, Chapter

1, Section(s) 265.174

Violation Description: Failure to inspect hazardous waste storage areas at least weekly.

Violation Notes: Per Mr. Maminiski, container areas are inspected twice a year. Begin

conducting container area inspections weekly.

Violation Division: Santa Clara County Environmental Health

Violation Program: HW
Violation Source: CERS,

Site ID: 142552

Site Name: PERFORMANCE TECHNIQUES

Violation Date: 07-22-2022

Citation: 40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter

1, Section(s) 265.173

Violation Description: Failure to meet the following container management requirements: (a) A

container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste. (b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to

leak.

Violation Notes: Returned to compliance on 07/26/2022. Observed 3x 55 gallon drum of

used oil in the hazardous waste accumulation area that were missing the bung cap. These used oil containers were open and were not actively in use to add or remove waste during the inspection.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:

The California Environmental Protection Agency (CalEPA) has recently implemented a new data warehouse system (nSite). This data warehouse combines and merges facility and site information from five different systems managed within CalEPA. The five systems are: California Environmental Reporting System (CERS), EnviroStor, GeoTracker, California Integrated Water Quality System (CIWQS), andToxic Release Inventory (TRI).

California's Hazardous Waste Tracking System Data Mart (HWTS-DATAMART) provides information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

THE EMISSION INVENTORY SYSTEM (EIS) MAINTAINS AN INVENTORY OF LARGE STATIONARY SOURCES AND VOLUNTARILY-REPORTED SMALLER SOURCES OF AIR POINT POLLUTANT EMITTERS. IT CONTAINS INFORMATION ABOUT FACILITY SITES AND THEIR PHYSICAL LOCATION, EMISSIONS UNITS, EMISSIONS PROCESSES, RELEASE POINTS, CONTROL APPROACHES, AND REGULATIONS. FACILITY INVENTORY DATA ARE KEPT SEPARATE FROM THE EMISSIONS DATA AND HAVE STABLE IDENTIFIERS TO IMPROVE CONTINUITY FROM YEAR TO YEAR AND TO HELP IDENTIFY DUPLICATE OR MISSING FACILITIES

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

The Department of Labor, Occupational Safety and Health Administration information system consists of inspection case detail for approximately 100,000 OSHA inspections conducted annually. The FRS dataset includes facilities that had inspections within the last 7 years within the mining, oil and gas, utilities, and manufacturing sectors.

Evaluation:

Eval General Type: Compliance Evaluation Inspection

Eval Date: 08-21-2017

Violations Found: Yes

Eval Type: Routine done by local agency

Eval Notes: Facility has ceased operation of treatment in its system. Waste is now

pumped from the etch tool to the holding tank, where it is directly transferred to barrels for offiste transportation. According to logs available for review, last treatment in system occurred 5/26/16.

--Waste is currently being stored/stockpiled while drums being delivered. Original delivery provided poly drums which were then indicated to not be proper containers, needing stainless steel drums. Site could not locate its closure plan to address the immanent dismantling and removal of the filter press. All other components of

the system are slated to remain in use as hazardous waste

storage/transfer containers. SITE WILL BE PLACED INTO "DEFERRED

CLOSURE". IN THIS STATE, SITE AGREES THAT FULL PBR CLOSURE STANDARDS APPLY ALL PARTS OF THE TREATMENT SYSTEM, AND AT THE TIME THAT THE SYSTEM (OR COMPONENTS) ARE REMOVED FROM SERVICE, THEY WILL BE CLOSED

ACCORDING TO THE PLAN AND UNDER PERMIT AND [Truncated]

Eval Division: Santa Clara County Environmental Health

Eval Program: PBR Eval Source: CERS,

Eval General Type: Compliance Evaluation Inspection

Eval Date: 08-21-2017 Violations Found: Yes

Eval Type: Routine done by local agency

Eval Notes: Site generates waste from the etching of metal, screen printing (both

plate making and inks) and painting. Wastes are collected in

containers and removed under EPA ID CAD982487571 G020C: Drums used for

consolidation of waste were all missing the properties and hazards of the wastes. Each drum was marked with this information during the inspection. Both ink and paint wastes are consolidated to same drum for disposal. Booth filters will be managed as HW once removed. Site may wish to utilize satellite accumulation to extend life of storage of waste. Literature provided and requirements discussed. Inspections of waste areas done weekly. Logging inspection of nitric etch system room/drums. Strongly recommend replacing labels on step cans in ink

room. Labels are becoming difficult to read due to drips.

otherwise create nameplate and identifier devices. Shop consists of an

etch room, platemaker and resist strip area, photoplate/film

developer, screen and ink room, paint area (with paint booth), and ink room. Photoresist (AZ Aquablue) is washed and solution is recycled through machine until spent. Completed pH calculation for solution

(12.28) and fish bioassay (all lived) on waste to demonstrate non-hazardous. Etch room captures spent nitric acid and rinse from etching of plates (95% magnesium, 1% zinc). Waste generated at etch machine as well as at rinse table. -Waste is treated onsite as part of PBR system. Film developer with silver is collected and shipped offsite using manifest. Screen wash via wipe with papertowels. collected in step cans and transferred to consolidation drum at end of each day. Ink in ink cups at point of use is removed and captured for

re-use. Ink being used does not expire [Truncated]

Eval Division: Santa Clara County Environmental Health

Eval Program: HW **Eval Source:** CERS,

Eval General Type: Compliance Evaluation Inspection

Eval Date: 10-22-2014 Violations Found: Yes

Eval Type: Routine done by local agency

Eval Notes:

Facility runs onsite batch treatment system for removal of zinc from nitric acid etch process of magnesium plates. System is three tanks and one filter press. Spent etch and rinse is piped from tool to hold, then to treat tank for pH adjust and floc. Sludge is pressed dry. Rinse water from plate rinse station comingles with spent etch prior to treatment. Have submitted information on CERS (12/13/13 submittal) Reviewed the following: PBR treatment notification forms (facility and unit pages) Closure cost estimate and financial responsibility

-Facility closure cost <10K Waste analysis plan and closure plan in DEH file, created in 2007 in response to inspection. Logs of treatment indicate batch treatment of 100 gallon batches on 1/2, 4/25, 5/16, and 9/17. logs note flow meter amounts (total quantity treated) as well as

pH readings with date and initials of inspector.

Violations:

Site ID: 90959

Site Name: V&M AUTO SERVICE

Violation Date: 05-19-2016

Citation: 22 CCR 12 66262.12 - California Code of Regulations, Title 22, Chapter

12, Section(s) 66262.12

Violation Description: Failure to obtain and/or maintain an Active EPA ID.

Violation Notes: Returned to compliance on 05/19/2016. Per the Hazardous Waste Tracking

System, EPA ID# CAL000287729 is inactive. Provided facility with DTSC

form 1358 to reactivate EPA ID#.

Violation Division: Santa Clara County Environmental Health

Violation Program: HW
Violation Source: CERS,

Evaluation:

Eval General Type: Compliance Evaluation Inspection

Eval Date: 05-19-2016 Violations Found: Yes

Eval Type: Routine done by local agency

Eval Notes: On site to conduct a routine hazardous waste inspection. Facility is a

small transmission shop with 1 service bay. Observed the following wastes on site: 1 x 15 gallon container of used oil 1 x 5 gallon

container of used oil Fire extinguishers have had annual maintenance Rags are managed by Mission Linen Spill control is available on site Employees are thoroughly familiar with hazardous waste management Container areas are inspected weekly Oily water is pumped from the hot soap parts washer. The oily water remains in a reservoir and is used until service is required. Disposal receipts for used oil and oily water were reviewed The following violations were corrected on site: 1

x 15 gallon drum of used oil was missing complete generator information and the start date. These markings were added during inspection. Emergency information was not posted on site. Emergency

Violation Date: 09-22-2021

Citation: 23 CCR 16 2716(e) - California Code of Regulations, Title 23, Chapter

16, Section(s) 2716(e)

Violation Description: For designated operator (DO) monthly inspections conducted before

October 1, 2018, failure to comply with one or more of the following requirements: Be performed by an ICC certified DO. Inspect monthly alarm history report, check that alarms are documented and responded

to appropriately, and attach a copy. Inspect for the presence of liquid/debris in spill containers. Inspect for the presence of

liquid/debris in spill containers. Inspect for the presence of liquid/debris in under dispenser containment (UDC) and ensure that the monitoring equipment is positioned correctly. Inspect for liquid or

debris in containment sumps where an alarm occurred with no service visit. Check that all testing and maintenance has been completed and documented. Verify that all facility employees have been trained in accordance with 23 CCR 2715(c). For designated operator (DO) 30 day inspections conducted on and after October 1, 2018, failure to conduct the designated UST operator visual inspection at least once every 30

days.

Violation Notes: DO did not note Diesel STP sump alarms on 2/6/21 & 2/7/21 on the

2/13/21 monthly inspection report, and marked "N/A" for sumps having

had an alarm since the previous inspection.

Environmental Interest/Information System:

The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many

types of information about generators, transporters, treaters,

storers, and disposers of hazardous waste.

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of state- and tribal hazardous waste facilities

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing

To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information (DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

PFAS NPDES: Clean Water Act Discharge Monitoring Information

Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS PART 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing

Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration?s document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

CERS: CalEPA Regulated Site Portal Data

The CalEPA Regulated Site Portal database combines data about environmentally regulated sites and facilities in California into a single database. It combines data from a variety of state and federal databases, and provides an overview of regulated activities across the spectrum of environmental programs for any given location in California. These activities include hazardous materials and waste, state and federal cleanups, impacted ground and surface waters, and toxic materials

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Elevation: 208 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map: 12021561 SAN JOSE WEST, CA

Version Date: 2018

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

- 1. Groundwater flow direction, and
- 2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General NNE

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property Data Coverage

SAN JOSE WEST YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius: 1.25 miles Location Relative to TP: 1/2 - 1 Mile North

Site Name: Noble Properties/Orchard Oak

Site EPA ID Number: CAD981990021

Groundwater Flow Direction: NNE, BUT MAY BE ALTERED BY LOCAL PUMPING.

Inferred Depth to Water: 100 feet to 130 feet.

Hydraulic Connection: An aquitard that separates the surficial and lower aquifers is

discontinuous or leaky in the vicinity of the site.

Sole Source Aquifer: No information about a sole source aquifer is available

Data Quality: Information is inferred in the CERCLIS investigation report(s)

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

LOCATION GENERAL DIRECTION

MAP ID FROM TP GROUNDWATER FLOW

Not Reported

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

GEOLOGIC AGE IDENTIFICATION

Era: Cenozoic Category: Stratifed Sequence

System: Quaternary Series: Quaternary

Code: Q (decoded above as Era, System & Series)

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name: BOTELLA
Soil Surface Texture: clay loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep,

moderately well and well drained soils with moderately coarse

textures.

Soil Drainage Class: Not reported

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel: MODERATE

Depth to Bedrock Min: > 60 inches

Depth to Bedrock Max: > 60 inches

Soil Layer Information							
	Boundary			Classification			
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	Permeability Rate (in/hr)	Soil Reaction (pH)
1	0 inches	9 inches	clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 0.60 Min: 0.20	Max: 7.30 Min: 5.60
2	9 inches	41 inches	silty clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 0.60 Min: 0.20	Max: 7.80 Min: 5.60
3	41 inches	76 inches	sandy clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	COARSE-GRAINED SOILS, Sands, Sands with fines, Clayey sand.	Max: 0.60 Min: 0.20	Max: 7.80 Min: 5.60

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures: No Other Soil Types

Surficial Soil Types: No Other Soil Types

Shallow Soil Types: No Other Soil Types

Deeper Soil Types: No Other Soil Types

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PRELIMINARY REPORT UPDATE B

In response to the application for a policy of title insurance referenced herein, **Chicago Title Company** hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a policy or policies of title insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an exception herein or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations or Conditions of said policy forms.

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said policy or policies are set forth in Attachment One. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitations on Covered Risks applicable to the CLTA and ALTA Homeowner's Policies of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Attachment One. Copies of the policy forms should be read. They are available from the office which issued this report.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

The policy(s) of title insurance to be issued hereunder will be policy(s) of Chicago Title Insurance Company, a Florida corporation.

Please read the exceptions shown or referred to herein and the exceptions and exclusions set forth in Attachment One of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects and encumbrances affecting title to the land.

PRELIMINARY REPORT UPDATE B

EFFECTIVE DATE: August 4, 2023 at 7:30 a.m.

ORDER NO.: 98204509-982-SK-JM

The form of policy or policies of title insurance contemplated by this report is:

CLTA Standard Coverage Policy (4-8-14)

1. THE ESTATE OR INTEREST IN THE LAND HEREINAFTER DESCRIBED OR REFERRED TO COVERED BY THIS REPORT IS:

A Fee

2. TITLE TO SAID ESTATE OR INTEREST AT THE DATE HEREOF IS VESTED IN:

Campbell Technology Park, LLC, a California limited liability company

3. THE LAND REFERRED TO IN THIS REPORT IS DESCRIBED AS FOLLOWS:

See Exhibit A attached hereto and made a part hereof.

EXHIBIT A LEGAL DESCRIPTION

THE LAND REFERRED TO HEREIN BELOW IS SITUATED IN THE CITY OF CAMPBELL, IN THE COUNTY OF SANTA CLARA, STATE OF CALIFORNIA, AND IS DESCRIBED AS FOLLOWS:

PARCEL ONE:

ALL OF LOTS 1, 2 AND 3 AS SHOWN ON THAT PARCEL MAP FILED FOR RECORD IN THE OFFICE OF THE RECORDER OF THE COUNTY OF SANTA CLARA, STATE OF CALIFORNIA ON JUNE 02, 1999, IN <u>BOOK 716 OF MAPS</u>, <u>PAGE(S) 25</u>, 26 AND 27. AND AS CORRECTED BY CERTIFICATE OF CORRECTION FILE FOR RECORD NOVEMBER 22, 2002 UNDER RECORDER'S <u>SERIES NO. 16637071</u>, OF <u>OFFICIAL RECORDS</u>

PARCEL TWO:

ALL OF THAT PARCEL DESCRIBED AS "PROPERTY 2" ON THAT CERTAIN LOT LINE ADJUSTMENT (LLA) NO. 2001-1, WHICH RECORDED ON JUNE 06, 2001 UNDER RECORDER'S <u>SERIES NO. 15711578, OF</u> OFFICIAL RECORDS OF SANTA CLARA COUNTY, AND MORE PARTICULARLY DESCRIBED AS FOLLOWS:

ALL OF LOT 4 AS SHOWN ON THE PARCEL MAP, FILED FOR RECORD JUNE 02, 1999 IN BOOK 716 OF MAPS AT PAGES 25 THROUGH 27, SANTA CLARA COUNTY RECORDS.

EXCEPTING THEREFROM, THE FOLLOWING AREA:

A PORTION OF LOT 4 AS SHOWN ON THAT PARCEL MAP FILED FOR RECORD JUNE 02, 1999 IN <u>BOOK 716 OF MAPS AT PAGES 25</u> THROUGH 27, SANTA CLARA COUNTY RECORDS, DESCRIBED AS FOLLOWS:

BEGINNING AT THE NORTHWESTERLY CORNER OF SAID LOT 16 AS SHOWN ON THE MAP OF TRACT 3599, FILED FOR RECORD MARCH 25, 1964 IN <u>BOOK 175 OF MAPS AT PAGE(S) 47</u>, SANTA CLARA COUNTY RECORDS;

THENCE ALONG THE WESTERLY LINE OF SAID LOT 16, SOUTH 00° 23' 14" EAST, 174.86 FEET TO THE NORTHEASTERLY LINE OF CAMPBELL TECHNOLOGY PARKWAY;

THENCE ALONG SAID NORTHEASTERLY LINE THE FOLLOWING TWO COURSES:

- 1. NORTH 11° 25' 00" WEST, 41.86 FEET TO THE BEGINNING OF A CURVE TO THE LEFT;
- 2. NORTHWESTERLY ALONG SAID CURVE, HAVING A RADIUS OF 322.50 FEET, THROUGH A CENTRAL ANGLE OF 24° 16' 32", AN ARC LENGTH OF 136.64 FEET;

THENCE NORTH 54° 18' 28" EAST, 16.35 FEET;

THENCE SOUTH 89° 57' 23" EAST, 48.02 FEET TO THE POINT OF BEGINNING.

APN: 412-29-010, 412-29-011, 412-29-012, 412-29-015

EXCEPTIONS

AT THE DATE HEREOF, ITEMS TO BE CONSIDERED AND EXCEPTIONS TO COVERAGE IN ADDITION TO THE PRINTED EXCEPTIONS AND EXCLUSIONS IN SAID POLICY FORM WOULD BE AS FOLLOWS:

- 1. Property taxes, which are a lien not yet due and payable, including any assessments collected with taxes to be levied for the fiscal year 2023-2024.
- 2. Intentionally deleted
- 3. Intentionally deleted
- 4. Intentionally deleted
- 5. Prior to close of escrow, please contact the Tax Collector's Office to confirm all amounts owing, including current fiscal year taxes, supplemental taxes, escaped assessments and any delinquencies.
- 6. Any liens or other assessments, bonds, or special district liens including without limitation, Community Facility Districts, that arise by reason of any local, City, Municipal or County Project or Special District.
- 7. The lien of supplemental or escaped assessments of property taxes, if any, made pursuant to the provisions of Chapter 3.5 (commencing with Section 75) or Part 2, Chapter 3, Articles 3 and 4, respectively, of the Revenue and Taxation Code of the State of California as a result of the transfer of title to the vestee named in Schedule A or as a result of changes in ownership or new construction occurring prior to Date of Policy.
- 8. The herein described property lies within the boundaries of a Mello-Roos Community Facilities District (CFD) as follows:

CFD No.: 2013-1

For: Mello-Roos Community Facilities Act of 1982

Disclosed by: Notice of Special Tax Lien

Recording Date: January 22, 2014

Recording No.: 22502535, of Official Records

This property, along with all other parcels in the CFD, is liable for an annual special tax. This special tax is included with and payable with the general property taxes of the City of Campbell, County of Santa Clara. The tax may not be prepaid.

Further information may be obtained by contacting: Fiscal Agent of the Santa Clara County Library District Joint Powers 1370 Dell Avenue Campbell CA 95008 408-293-2326 x3004

9. The ownership of said Land does not include rights of access to or from the street, highway, or freeway abutting said Land, such rights having been relinquished by the document,

Pass-Through Certificates, Series 2015-NXS2

Recording Date: August 6, 2015

Recording No: 23045137, of Official Records

28. Any rights of the parties in possession of a portion of, or all of, said Land, which rights are not disclosed by the public records.

The Company will require, for review, a full and complete copy of any unrecorded agreement, contract, license and/or lease, together with all supplements, assignments and amendments thereto, before issuing any policy of title insurance without excepting this item from coverage.

The Company reserves the right to except additional items and/or make additional requirements after reviewing said documents.

- 29. Matters which may be disclosed by an inspection and/or by a correct ALTA/NSPS Land Title Survey of said Land that is satisfactory to the Company, and/or by inquiry of the parties in possession thereof.
- 30. The Company will require that an Owner's Affidavit be completed by the party(s) named below before the issuance of any policy of title insurance.

Party(s): Campbell Technology Park, LLC, a California limited liability company

The Company reserves the right to add additional items or make further requirements after review of the requested Affidavit.

Last Saved: 8/9/2023 12:58 PM by RT

Order No.: 98204509-982-SK-JM

EXCEPTIONS (Continued)

31. The Company will require the following documents for review prior to the issuance of any title insurance predicated upon a conveyance or encumbrance from the entity named below:

Limited Liability Company: Campbell Technology Park, LLC, a California limited liability company

- a) A copy of its operating agreement, if any, and all amendments, supplements and/or modifications thereto, certified by the appropriate manager or member.
- b) If a domestic Limited Liability Company, a copy of its Articles of Organization and all amendments thereto with the appropriate filing stamps.
- c) If the Limited Liability Company is member-managed, a full and complete current list of members certified by the appropriate manager or member.
- d) A current dated certificate of good standing from the proper governmental authority of the state in which the entity is currently domiciled.
- e) If less than all members, or managers, as appropriate, will be executing the closing documents, furnish evidence of the authority of those signing.
- f) If Limited Liability Company is a Single Member Entity, a Statement of Information for the Single Member will be required.
- g) Each member and manager of the LLC without an Operating Agreement must execute in the presence of a notary public the Certificate of California LLC (Without an Operating Agreement) Status and Authority form.
- 32. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other matters which a correct survey would disclose and which are not shown by the public records.
- 33. Any claims for mechanics' or materialman's liens that may be recorded by reason of a recent work of improvement under construction and/or completed at the date hereof.
- 34. The requirement that the complete and correct name(s) of the buyer(s) in this transaction be submitted to the Title Department at least 5 days prior to the close of Escrow.
- 35. This transaction requires high liability approval prior to close of escrow together with an inspection of the subject property.
 - Please advise title department with an estimated date that your transaction will close so we can schedule the necessary approvals and inspections.
- 36. Prior to the close of escrow and the issuance of an ALTA Coverage Policy, an inspection of the property will be required.
- 37. The transaction contemplated in connection with this Report is subject to the review and approval of the Company's Corporate Underwriting Department. The Company reserves the right to add additional items or make further requirements after such review.

NOTES (Continued)

6. Note: Property taxes for the fiscal year shown below are PAID. For proration purposes the amounts were:

Code Area: 010-104 412-29-015 Tax Identification No.: Fiscal Year: 2022-2023 1st Installment: \$90,639.58 2nd Installment: \$90.639.58 \$9.014.361.00 Land: \$5,151,060.00 Improvements: Bill No.: 8093316

Affects: Parcel Two

- 7. Note: There are NO conveyances affecting said Land recorded within 24 months of the date of this report.
- 8. Note: The charge for a policy of title insurance, when issued through this title order, will be based on the Basic Title Insurance Rate.
- 9. Notice: Please be aware that due to the conflict between federal and state laws concerning the cultivation, distribution, manufacture or sale of marijuana, the Company is not able to close or insure any transaction involving Land that is associated with these activities.
- 10. The application for title insurance was placed by reference to only a street address or tax identification number. The proposed Insured must confirm that the legal description in this report covers the parcel(s) of Land requested to be insured. If the legal description is incorrect, the proposed Insured must notify the Company and/or the settlement company in order to prevent errors and to be certain that the legal description for the intended parcel(s) of Land will appear on any documents to be recorded in connection with this transaction and on the policy of title insurance.
- 11. Note: If a county recorder, title insurance company, escrow company, real estate broker, real estate agent or association provides a copy of a declaration, governing document or deed to any person, California law requires that the document provided shall include a statement regarding any unlawful restrictions. Said statement is to be in at least 14-point bold face type and may be stamped on the first page of any document provided or included as a cover page attached to the requested document. Should a party to this transaction request a copy of any document reported herein that fits this category, the statement is to be included in the manner described.
- 12. Note: Any documents being executed in conjunction with this transaction must be signed in the presence of an authorized Company employee, an authorized employee of a Company agent, an authorized employee of the insured lender, or by using Bancserv or other Company-approved third-party service. If the above requirement cannot be met, please call the Company at the number provided in this report.
- 13. Pursuant to Government Code Section 27388.1, as amended and effective as of 1-1-2018, a Documentary Transfer Tax (DTT) Affidavit may be required to be completed and submitted with each document when DTT is being paid or when an exemption is being claimed from paying the tax. If a governmental agency is a party to the document, the form will not be required. DTT Affidavits may be available at a Tax Assessor-County Clerk-Recorder.

Last Saved: 8/9/2023 12:58 PM by RT Order No.: 98204509-982-SK-JM

NOTES (Continued)

14. Note: The policy of title insurance will include an arbitration provision. The Company or the insured may demand arbitration. Arbitrable matters may include, but are not limited to, any controversy or claim between the Company and the insured arising out of or relating to this policy, any service of the Company in connection with its issuance or the breach of a policy provision or other obligation. Please ask your escrow or title officer for a sample copy of the policy to be issued if you wish to review the arbitration provisions and any other provisions pertaining to your Title Insurance coverage.

15. Due to the special requirements of SB 50 (California Public Resources Code Section 8560 et seq.), any transaction that includes the conveyance of title by an agency of the United States must be approved in advance by the Company's State Counsel, Regional Counsel, or one of their designees.

END OF NOTES

Wire Fraud Alert

This Notice is not intended to provide legal or professional advice. If you have any questions, please consult with a lawyer.

All parties to a real estate transaction are targets for wire fraud and many have lost hundreds of thousands of dollars because they simply relied on the wire instructions received via email, without further verification. If funds are to be wired in conjunction with this real estate transaction, we strongly recommend verbal verification of wire instructions through a known, trusted phone number prior to sending funds.

In addition, the following non exclusive self protection strategies are recommended to minimize exposure to possible wire fraud.

- **NEVER RELY** on emails purporting to change wire instructions. Parties to a transaction rarely change wire instructions in the course of a transaction.
- ALWAYS VERIFY wire instructions, specifically the ABA routing number and account number, by calling the party who sent the instructions to you. DO NOT use the phone number provided in the email containing the instructions, use phone numbers you have called before or can otherwise verify. Obtain the phone number of relevant parties to the transaction as soon as an escrow account is opened. DO NOT send an email to verify as the email address may be incorrect or the email may be intercepted by the fraudster.
- **USE COMPLEX EMAIL PASSWORDS** that employ a combination of mixed case, numbers, and symbols. Make your passwords greater than eight (8) characters. Also, change your password often and do NOT reuse the same password for other online accounts.
- **USE MULTI-FACTOR AUTHENTICATION** for email accounts. Your email provider or IT staff may have specific instructions on how to implement this feature.

For more information on wire fraud scams or to report an incident, please refer to the following links:

Notice of Available Discounts

Pursuant to Section 2355.3 in Title 10 of the California Code of Regulations Fidelity National Financial, Inc. and its subsidiaries ("FNF") must deliver a notice of each discount available under our current rate filing along with the delivery of escrow instructions, a preliminary report or commitment. Please be aware that the provision of this notice does not constitute a waiver of the consumer's right to be charged the filed rate. As such, your transaction may not qualify for the below discounts.

You are encouraged to discuss the applicability of one or more of the below discounts with a Company representative. These discounts are generally described below; consult the rate manual for a full description of the terms, conditions and requirements for such discount. These discounts only apply to transactions involving services rendered by the FNF Family of Companies. This notice only applies to transactions involving property improved with a one-to-four family residential dwelling.

Not all discounts are offered by every FNF Company. The discount will only be applicable to the FNF Company as indicated by the named discount.

FIDELITY NATIONAL FINANCIAL, INC. PRIVACY NOTICE

Effective August 1, 2021

Fidelity National Financial, Inc. and its majority-owned subsidiary companies (collectively, "FNF," "our," or "we") respect and are committed to protecting your privacy. This Privacy Notice explains how we collect, use, and protect personal information, when and to whom we disclose such information, and the choices you have about the use and disclosure of that information.

A limited number of FNF subsidiaries have their own privacy notices. If a subsidiary has its own privacy notice, the privacy notice will be available on the subsidiary's website and this Privacy Notice does not apply.

Collection of Personal Information

FNF may collect the following categories of Personal Information:

- contact information (e.g., name, address, phone number, email address);
- demographic information (e.g., date of birth, gender, marital status);
- identity information (e.g. Social Security Number, driver's license, passport, or other government ID number);
- financial account information (e.g. loan or bank account information); and
- other personal information necessary to provide products or services to you.

We may collect Personal Information about you from:

- information we receive from you or your agent;
- information about your transactions with FNF, our affiliates, or others; and
- information we receive from consumer reporting agencies and/or governmental entities, either directly from these entities or through others.

Collection of Browsing Information

FNF automatically collects the following types of Browsing Information when you access an FNF website, online service, or application (each an "FNF Website") from your Internet browser, computer, and/or device:

- Internet Protocol (IP) address and operating system;
- browser version, language, and type;
- domain name system requests; and
- browsing history on the FNF Website, such as date and time of your visit to the FNF Website and visits to the pages within the FNF Website.

Like most websites, our servers automatically log each visitor to the FNF Website and may collect the Browsing Information described above. We use Browsing Information for system administration, troubleshooting, fraud investigation, and to improve our websites. Browsing Information generally does not reveal anything personal about you, though if you have created a user account for an FNF Website and are logged into that account, the FNF Website may be able to link certain browsing activity to your user account.

Other Online Specifics

Cookies. When you visit an FNF Website, a "cookie" may be sent to your computer. A cookie is a small piece of data that is sent to your Internet browser from a web server and stored on your computer's hard drive. Information gathered using cookies helps us improve your user experience. For example, a cookie can help the website load properly or can customize the display page based on your browser type and user preferences. You can choose whether or not to accept cookies by changing your Internet browser settings. Be aware that doing so may impair or limit some functionality of the FNF Website.

<u>Web Beacons</u>. We use web beacons to determine when and how many times a page has been viewed. This information is used to improve our websites.

Do Not Track. Currently our FNF Websites do not respond to "Do Not Track" features enabled through your browser.

<u>Links to Other Sites</u>. FNF Websites may contain links to unaffiliated third-party websites. FNF is not responsible for the privacy practices or content of those websites. We recommend that you read the privacy policy of every website you visit.

Use of Personal Information

FNF uses Personal Information for three main purposes:

- To provide products and services to you or in connection with a transaction involving you.
- To improve our products and services.
- To communicate with you about our, our affiliates', and others' products and services, jointly or independently.

When Information Is Disclosed

We may disclose your Personal Information and Browsing Information in the following circumstances:

- to enable us to detect or prevent criminal activity, fraud, material misrepresentation, or nondisclosure;
- to nonaffiliated service providers who provide or perform services or functions on our behalf and who agree to use the information only to provide such services or functions;

- to nonaffiliated third party service providers with whom we perform joint marketing, pursuant to an agreement with them to jointly market financial products or services to you;
- to law enforcement or authorities in connection with an investigation, or in response to a subpoena or court order; or
- in the good-faith belief that such disclosure is necessary to comply with legal process or applicable laws, or to protect the rights, property, or safety of FNF, its customers, or the public.

The law does not require your prior authorization and does not allow you to restrict the disclosures described above. Additionally, we may disclose your information to third parties for whom you have given us authorization or consent to make such disclosure. We do not otherwise share your Personal Information or Browsing Information with nonaffiliated third parties, except as required or permitted by law. We may share your Personal Information with affiliates (other companies owned by FNF) to directly market to you. Please see "Choices with Your Information" to learn how to restrict that sharing.

We reserve the right to transfer your Personal Information, Browsing Information, and any other information, in connection with the sale or other disposition of all or part of the FNF business and/or assets, or in the event of bankruptcy, reorganization, insolvency, receivership, or an assignment for the benefit of creditors. By submitting Personal Information and/or Browsing Information to FNF, you expressly agree and consent to the use and/or transfer of the foregoing information in connection with any of the above described proceedings.

Security of Your Information

We maintain physical, electronic, and procedural safeguards to protect your Personal Information.

Choices With Your Information

If you do not want FNF to share your information among our affiliates to directly market to you, you may send an "opt out" request as directed at the end of this Privacy Notice. We do not share your Personal Information with nonaffiliates for their use to direct market to you without your consent.

Whether you submit Personal Information or Browsing Information to FNF is entirely up to you. If you decide not to submit Personal Information or Browsing Information, FNF may not be able to provide certain services or products to you.

<u>For California Residents</u>: We will not share your Personal Information or Browsing Information with nonaffiliated third parties, except as permitted by California law. For additional information about your California privacy rights, please visit the "California Privacy" link on our website (https://fnf.com/pages/californiaprivacy.aspx) or call (888) 413-1748.

<u>For Nevada Residents</u>: You may be placed on our internal Do Not Call List by calling (888) 714-2710 or by contacting us via the information set forth at the end of this Privacy Notice. Nevada law requires that we also provide you with the following contact information: Bureau of Consumer Protection, Office of the Nevada Attorney General, 555 E. Washington St., Suite 3900, Las Vegas, NV 89101; Phone number: (702) 486-3132; email: BCPINFO@ag.state.nv.us.

<u>For Oregon Residents</u>: We will not share your Personal Information or Browsing Information with nonaffiliated third parties for marketing purposes, except after you have been informed by us of such sharing and had an opportunity to indicate that you do not want a disclosure made for marketing purposes.

<u>For Vermont Residents</u>: We will not disclose information about your creditworthiness to our affiliates and will not disclose your personal information, financial information, credit report, or health information to nonaffiliated third parties to market to you, other than as permitted by Vermont law, unless you authorize us to make those disclosures.

Information From Children

The FNF Websites are not intended or designed to attract persons under the age of eighteen (18). We do <u>not</u> collect Personal Information from any person that we know to be under the age of thirteen (13) without permission from a parent or guardian.

International Users

FNF's headquarters is located within the United States. If you reside outside the United States and choose to provide Personal Information or Browsing Information to us, please note that we may transfer that information outside of your country of residence. By providing FNF with your Personal Information and/or Browsing Information, you consent to our collection, transfer, and use of such information in accordance with this Privacy Notice.

FNF Website Services for Mortgage Loans

Certain FNF companies provide services to mortgage loan servicers, including hosting websites that collect customer information on behalf of mortgage loan servicers (the "Service Websites"). The Service Websites may contain links to both this Privacy Notice and the mortgage loan servicer or lender's privacy notice. The sections of this Privacy Notice titled When Information is Disclosed, Choices with Your Information, and Accessing and Correcting Information do not apply to the Service Websites. The mortgage loan servicer or lender's privacy notice governs use, disclosure, and access to your Personal Information. FNF does not share Personal Information collected through the Service Websites, except as required or authorized by contract with the mortgage loan servicer or lender, or as required by law or in the good-faith belief that such disclosure is necessary: to comply with a legal process or applicable law, to enforce this Privacy Notice, or to protect the rights, property, or safety of FNF or the public.

Your Consent To This Privacy Notice; Notice Changes

By submitting Personal Information and/or Browsing Information to FNF, you consent to the collection and use of the information in accordance with this Privacy Notice. We may change this Privacy Notice at any time. The Privacy Notice's effective date will show the last date changes were made. If you provide information to us following any change of the Privacy Notice, that signifies your assent to and acceptance of the changes to the Privacy Notice.

Accessing and Correcting Information; Contact Us

If you have questions, would like to correct your Personal Information, or want to opt-out of information sharing for affiliate marketing, visit FNF's Opt Out Page or contact us by phone at (888) 714-2710 or by mail to:

Fidelity National Financial, Inc. 601 Riverside Avenue, Jacksonville, Florida 32204 Attn: Chief Privacy Officer

ATTACHMENT ONE (Revised 05-06-16)

CALIFORNIA LAND TITLE ASSOCIATION STANDARD COVERAGE POLICY – 1990

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

- 1. (a) Any law, ordinance or governmental regulation (including but not limited to building or zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or (iv) environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien, or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
 - (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
- 2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
- Defects, liens, encumbrances, adverse claims or other matters:
 - (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant;
 - (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;
 - (c) resulting in no loss or damage to the insured claimant;
 - (d) attaching or created subsequent to Date of Policy; or
 - (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.
- 4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land is situated.
- 5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
- 6. Any claim, which arises out of the transaction vesting in the insured the estate of interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART I

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

- 1. Taxes or assessments which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.
 - Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
- Any facts, rights, interests, or claims which are not shown by the public records but which could be ascertained by an inspection of the land or which may be asserted by persons in possession thereof.
- 3. Easements, liens or encumbrances, or claims thereof, not shown by the public records.
- 4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
- 5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.
- 6. Any lien or right to a lien for services, labor or material not shown by the public records.

CLTA HOMEOWNER'S POLICY OF TITLE INSURANCE (12-02-13) ALTA HOMEOWNER'S POLICY OF TITLE INSURANCE

EXCLUSIONS

In addition to the Exceptions in Schedule B, You are not insured against loss, costs, attorneys' fees, and expenses resulting from:

- 1. Governmental police power, and the existence or violation of those portions of any law or government regulation concerning:
 - a. building;
 - b. zoning;
 - c. land use;
 - d. improvements on the Land;
 - e. land division; and
 - f. environmental protection.
 - This Exclusion does not limit the coverage described in Covered Risk 8.a., 14, 15, 16, 18, 19, 20, 23 or 27.
- 2. The failure of Your existing structures, or any part of them, to be constructed in accordance with applicable building codes. This Exclusion does not limit the coverage described in Covered Risk 14 or 15.
- 3. The right to take the Land by condemning it. This Exclusion does not limit the coverage described in Covered Risk 17.
- 4. Risks:
 - a. that are created, allowed, or agreed to by You, whether or not they are recorded in the Public Records;
 - b. that are Known to You at the Policy Date, but not to Us, unless they are recorded in the Public Records at the Policy Date;

Attachment One - CA (Rev. 05-06-16)

Page 1

- c. that result in no loss to You; or
- d. that first occur after the Policy Date this does not limit the coverage described in Covered Risk 7, 8.e., 25, 26, 27 or 28.
- Failure to pay value for Your Title.
- 6. Lack of a right:
 - a. to any land outside the area specifically described and referred to in paragraph 3 of Schedule A; and
 - b. in streets, alleys, or waterways that touch the Land.
 - This Exclusion does not limit the coverage described in Covered Risk 11 or 21.
- 7. The transfer of the Title to You is invalid as a preferential transfer or as a fraudulent transfer or conveyance under federal bankruptcy, state insolvency, or similar creditors' rights laws.
- 8. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
- 9. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

LIMITATIONS ON COVERED RISKS

Your insurance for the following Covered Risks is limited on the Owner's Coverage Statement as follows:

• For Covered Risk 16, 18, 19, and 21 Your Deductible Amount and Our Maximum Dollar Limit of Liability shown in Schedule A.

The deductible amounts and maximum dollar limits shown on Schedule A are as follows:

	Your Deductible Amount	Our Maximum Dollar Limit of Liability
Covered Risk 16:	1.00% of Policy Amount Shown in Schedule A or \$2,500.00 (whichever is less)	\$ 10,000.00
Covered Risk 18:	1.00% of Policy Amount Shown in Schedule A or \$5,000.00 (whichever is less)	\$ 25,000.00
Covered Risk 19:	1.00% of Policy Amount Shown in Schedule A or \$5,000.00 (whichever is less)	\$ 25,000.00
Covered Risk 21:	1.00% of Policy Amount Shown in Schedule A or \$2,500.00 (whichever is less)	\$ 5,000.00

2006 ALTA LOAN POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

- 1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - (i) the occupancy, use, or enjoyment of the Land;
 - (ii) the character, dimensions, or location of any improvement erected on the Land;
 - (iii) the subdivision of land; or
 - (iv) environmental protection;
 - or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
 - (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
- 2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
- 3. Defects, liens, encumbrances, adverse claims, or other matters
 - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
 - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - (c) resulting in no loss or damage to the Insured Claimant;
 - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13 or 14); or
 - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
- 4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
- 5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
- 6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
 - (a) a fraudulent conveyance or fraudulent transfer, or
 - (b) a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
- Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

{Except as provided in Schedule B - Part II,{ t{or T}his policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of:

Attachment One - CA (Rev. 05-06-16)

{PART I

{The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

- 1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
- 2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
- 3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
- 4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
- 5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
- 6. Any lien or right to a lien for services, labor or material not shown by the Public Records.}

PART II

In addition to the matters set forth in Part I of this Schedule, the Title is subject to the following matters, and the Company insures against loss or damage sustained in the event that they are not subordinate to the lien of the Insured Mortgage:}

2006 ALTA OWNER'S POLICY (06-17-06)

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

- 1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - (i) the occupancy, use, or enjoyment of the Land;
 - (ii) the character, dimensions, or location of any improvement erected on the Land;
 - (iii) the subdivision of land; or
 - (iv) environmental protection;
 - or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
 - (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
- 2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
- 3. Defects, liens, encumbrances, adverse claims, or other matters
 - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
 - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - (c) resulting in no loss or damage to the Insured Claimant;
 - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 9 and 10); or
 - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Title.
- 4. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction vesting the Title as shown in Schedule A, is
 - (a) a fraudulent conveyance or fraudulent transfer: or
 - (b) a preferential transfer for any reason not stated in Covered Risk 9 of this policy.
- 5. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the deed or other instrument of transfer in the Public Records that vests Title as shown in Schedule A.

The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage, the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

EXCEPTIONS FROM COVERAGE

This policy does not insure against loss or damage, and the Company will not pay costs, attorneys' fees or expenses, that arise by reason of: {The above policy form may be issued to afford either Standard Coverage or Extended Coverage. In addition to the above Exclusions from Coverage,

the Exceptions from Coverage in a Standard Coverage policy will also include the following Exceptions from Coverage:

- (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real
 property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings,
 whether or not shown by the records of such agency or by the Public Records.
- 2. Any facts, rights, interests, or claims that are not shown in the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
- 3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
- 4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and that are not shown by the Public Records.

- 7. {Variable exceptions such as taxes, easements, CC&R's, etc. shown here.}

Attachment One - CA (Rev. 05-06-16)

ALTA EXPANDED COVERAGE RESIDENTIAL LOAN POLICY - ASSESSMENTS PRIORITY (04-02-15)

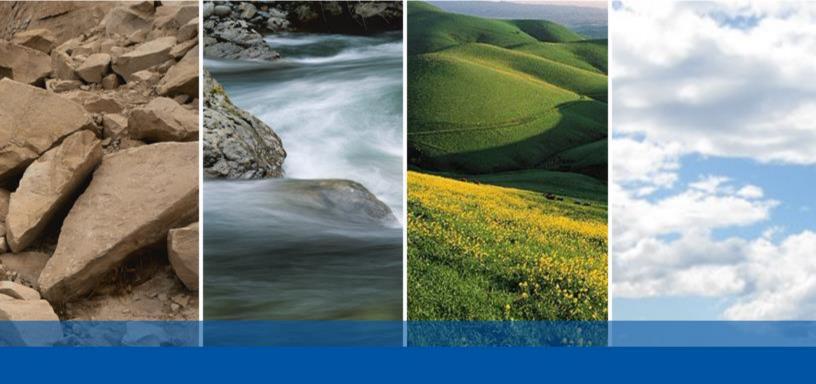

EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

- 1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - (i) the occupancy, use, or enjoyment of the Land;
 - (ii) the character, dimensions, or location of any improvement erected on the Land;
 - (iii) the subdivision of land; or
 - (iv) environmental protection;
 - or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
 - (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 5, 6, 13(c), 13(d), 14 or 16.
- 2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
- 3. Defects, liens, encumbrances, adverse claims, or other matters
 - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
 - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - (c) resulting in no loss or damage to the Insured Claimant;
 - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 16, 17, 18, 19, 20, 21, 22, 23, 24, 27 or 28); or
 - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
- 4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
- 5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury, or any consumer credit protection or truth-in-lending law. This Exclusion does not modify or limit the coverage provided in Covered Risk 26.
- 6. Any claim of invalidity, unenforceability or lack of priority of the lien of the Insured Mortgage as to Advances or modifications made after the Insured has Knowledge that the vestee shown in Schedule A is no longer the owner of the estate or interest covered by this policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11.
- 7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching subsequent to Date of Policy. This Exclusion does not modify or limit the coverage provided in Covered Risk 11(b) or 25.
- 8. The failure of the residential structure, or any portion of it, to have been constructed before, on or after Date of Policy in accordance with applicable building codes. This Exclusion does not modify or limit the coverage provided in Covered Risk 5 or 6.
- 9. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
 - (a) a fraudulent conveyance or fraudulent transfer, or
 - (b) a preferential transfer for any reason not stated in Covered Risk 27(b) of this policy.
- 10. Contamination, explosion, fire, flooding, vibration, fracturing, earthquake, or subsidence.
- 11. Negligence by a person or an Entity exercising a right to extract or develop minerals, water, or any other substances.

This map/plat is being furnished as an aid in locating the herein described Land in relation to adjoining streets, natural boundaries and other land, and is not a survey of the land depicted. Except to the extent a policy of title insurance is expressly modified by endorsement, if any, the Company does not insure dimensions, distances, location of easements, acreage or other matters shown thereon.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at approximately five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1922 through current. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

Summary information obtained is provided in the text of this report.

RECORD SOURCES

The EDR City Directory Report accesses a variety of business directory sources, including Haines, InfoUSA, Polk, Cole, Bresser, and Stewart. Listings marked as EDR Digital Archive access Cole and InfoUSA records. The various directory sources enhance and complement each other to provide a more thorough and accurate report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer.

APPENDIX G

ENVIRONMENTAL SITE ASSESSMENT QUESTIONNAIRES (2)

Project Name: 635 – 695 Campbell Technology Parkway

Project No. P23723.000.001

ENVIRONMENTAL SITE ASSESSMENT QUESTIONNAIRE FOR CLIENT

To evaluate the potential for possible environmentally related impacts and site contamination the following information is requested. This questionnaire is to be completed by the user of the phase one environmental site assessment, or their authorized representative.

PART I

1.	Property address and Assessor's Parcel Number (APN):
	Property address and Assessor's Parcel Number (APN): 635-695 CAMP BELL TECHNOLOG9 PARKWAY, CAMPRU, CA
	412-29-010, 412-29-011, 412-29-012, 412-29-015

2. Current property owner (name, address, voice/fax number):

3. Date current property owner assumed title of property:

4. Current property development/improvements:

5. Past property use, development/improvements:

6. Neighboring property uses:

MJLTI FAMILY RKS I DKNTIAL

PART II

1.	Are you aware of any environmental cleanup liens against the <i>property</i> that are filed under federal, tribal, local or state law?	Yes	No	
2.	Are you aware of any activity and land use limitations, such as engineering controls, land use restrictions, or institutional controls that are in place at the property and/or have been filed or recorded in a registry under federal, tribal, state or local law?	Yes	No	
3.	Do you have any specialized knowledge or experience related to the <i>property</i> or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the <i>property</i> or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?	Yes	No	
4.	If a property transaction is occurring in conjunction with this environmental assessment, does the purchase price of this <i>property</i> reasonably reflect the fair market value of the <i>property</i> ?	Yes	No	
5.	If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the <i>property?</i>	Yes	No	N/A
6.	Are you aware of any commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example, (a) do you know of specific chemicals that are present or once were present at the <i>property</i> ? (b) do you know of spills or other chemical releases that have taken place at the <i>property</i> ? (c) do you know of any environmental cleanups that have taken place at the <i>property</i> ?	Yes	X No	
7.	Based on your knowledge and experience related to the <i>property</i> are there any obvious indicators that point to the presence or likely presence of contamination at the <i>property</i> ?	Yes	No	
lf a	"Yes" response was provided to any of the above questions, please provide details below	w:		
l ce	rtify that the information herein is true and correct to the best of my knowledge as of the date sig	gned belo	w.

Project Name: 635 – 695 Campbell Technology Parkway

Project No. P23723.000.001

ENVIRONMENTAL SITE ASSESSMENT QUESTIONNAIRE FOR KEY SITE MANAGER

To evaluate the potential for possible environmentally related impacts and site contamination the following information is requested. This questionnaire is to be preferably completed by the current property owner, or owner representative, leasing agent, or other person having good knowledge of the uses and physical characteristics of the property (Key Site Manager).

PART I

1.	Property Address/Location and Assessor's Parcel Number (APN): 635-695 CAMPBILLE TRUTH DLOGY PARKWAY, CAMPBILL, CA 412-29-010, 412-29-011, 412-29-012, 412-29-015
2.	Current property owner (name, address, voice/fax number): CAMPORUL TECHNOLOGY PANK, UC 1960 THE ALAMHOA, SOTH 150 SAN SOSK, CA. 95125
3.	Date current property owner assumed title of property: APRIL 1006
4.	Current property development/improvements:

5. Past property use, development/improvements:

DRIVE-IN- WOUTH THEATER

6. Neighboring property uses:

NULTI EAMILY RIGINALIAC

PART II - The following questions should be answered to the best of your knowledge.

1	le/has the property or any adjaining property used/hoop used for industrial purposes?		
1.	Is/has the <i>property</i> or any adjoining property used/been used for industrial purposes?	Yes	No
	Has the <i>property</i> or any adjoining property been used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility?	Yes	No
	Are there currently, or have there been previously, any damaged or discarded automotive or industrial batteries, or pesticides, paints, or other chemicals in individual containers of greater than 5 gal in volume or 50 gal in the aggregate, stored on or used at the <i>property</i> or at the facility?	Yes	No
4.	Has undocumented soil been brought onto the property at any time? If yes, estimated quantity is cubic yards.	Yes	No.
5.	Has soil been brought onto the property that originated from a contaminated site or that is of an unknown origin?	Yes	No
6.	Are there currently, or have there been previously, any pits, ponds, or lagoons located on the <i>property</i> in connection with waste treatment or waste disposal?	Yes	
7.	Is there currently, or has there been previously, any stained soil on the property?	 Yes	No
8.	Are there currently, or have there been previously, any registered or unregistered storage tanks (above or underground) located on the <i>property</i> ?	Yes	No.
9.	Are there currently, or have there been previously, any vent pipes, fill pipes, or access ways indicating a fill pipe protruding from the ground on the <i>property</i> or adjacent to any structure located on the <i>property</i> ?	Yes	No.
10.	Are there currently, or have there been previously, any flooring, drains, or walls located within the facility that are stained by substances other than water or are emitting foul odors?	Yes	100 100 100 100 100 100 100 100 100 100
11.	Are there any domestic, irrigation or monitoring wells on the property?	Yes	No
12.	If the <i>property</i> is served by a private well or non-public water system, have contaminants been identified in the well or system that exceed guidelines applicable to the water system or has the well been designated as contaminated by any government environmental/health agency?	Yes	N _o
13.	Have you been informed of the past or current existence of <i>hazardous substances</i> or <i>petroleum products</i> or environmental violations with respect to the <i>property</i> or any facility located on the <i>property</i> ?	Yes	No
14.	Have there been any <i>environmental site assessments</i> of the <i>property</i> or facility that indicated the presence of <i>hazardous substances</i> or <i>petroleum products</i> on, or contamination of, the <i>property</i> or recommended further assessment of the <i>property</i> ?	Yes	No
15.	Have there been any past, threatened, or pending lawsuits or administrative proceedings concerning a release or threatened release of any <i>hazardous substance</i> or <i>petroleum products</i> involving the <i>property</i> ?	Yes	1 00
16.	Has there been any past agricultural use of the <i>property</i> , such as orchards or seed crop cultivation?	Yes	No
17.	Have any <i>hazardous substances</i> or <i>petroleum products</i> , unidentified waste materials, tires, automotive or industrial batteries or any other waste materials been dumped above grade, buried and/or burned on the <i>property?</i>	Yes	No
18.	Is there a transformer, capacitor, or any hydraulic equipment for which there are any records indicating the presence of PCBs?	Yes	No

If a "Yes" response was provided to any of the above questions, please provide details below:
I certify that the information herein is true and correct to the best of my knowledge as of the date signed below.

TORRENT LABORATORY, INC

Laboratory Analytical Reports

Engeo (San Ramon) 2010 Crow Canyon Place,#250 San Ramon, California 94583

Tel: (925) 866-9000 Fax: (925) 866-0199

RE: Campbell Technology Parkway

Work Order No.: 2309014

Dear Nadine Periat:

Torrent Laboratory, Inc. received 27 sample(s) on September 01, 2023 for the analyses presented in the following Report.

All data for associated QC met EPA or laboratory specification(s) except where noted in the case narrative.

Torrent Laboratory, Inc. is certified by the State of California, ELAP #1991. If you have any questions regarding these test results, please feel free to contact the Project Management Team at (408)263-5258; ext 204.

Patti L Sandrock

QA Officer

Work Order: 2309014

CASE NARRATIVE

Unless otherwise indicated in the following narrative, no issues encountered with the receiving, preparation, analysis or reporting of the results associated with this work order.

Unless otherwise indicated in the following narrative, no results have been method and/or field blank corrected.

Reported results relate only to the items/samples tested by the laboratory.

This report shall not be reproduced, except in full, without the written approval of Torrent Laboratory, Inc.

Laboratory Qualifiers and Definitions

DEFINITIONS:

Accuracy/Bias (% Recovery) - The closeness of agreement between an observed value and an accepted reference value.

Blank (Method/Preparation Blank) -MB/PB - An analyte-free matrix to which all reagents are added in the same volumes/proportions as used in sample processing. The method blank is used to document contamination resulting from the analytical process.

Duplicate - a field sample and/or laboratory QC sample prepared in duplicate following all of the same processes and procedures used on the original sample (sample duplicate, LCSD, MSD)

Laboratory Control Sample (LCS ad LCSD) - A known matrix spiked with compounds representative of the target analyte(s). This is used to document laboratory performance.

Matrix - the component or substrate that contains the analyte of interest (e.g., - groundwater, sediment, soil, waste water, etc)

Matrix Spike (MS/MSD) - Client sample spiked with identical concentrations of target analyte (s). The spiking occurs prior to the sample preparation and analysis. They are used to document the precision and bias of a method in a given sample matrix.

Method Detection Limit (MDL) - the minimum concentration of a substance that can be measured and reported with a 99% confidence that the analyte concentration is greater than zero

Practical Quantitation Limit/Reporting Limit/Limit of Quantitation (PQL/RL/LOQ) - a laboratory determined value at 2 to 5 times above the MDL that can be reproduced in a manner that results in a 99% confidence level that the result is both accurate and precise. PQLs/RLs/LODs reflect all preparation factors and/or dilution factors that have been applied to the sample during the preparation and/or analytical processes.

Precision (%RPD) - The agreement among a set of replicate/duplicate measurements without regard to known value of the replicates

Surrogate (S) or (Surr) - An organic compound which is similar to the target analyte(s) in chemical composition and behavior in the analytical process, but which is not normally found in environmental samples. Surrogates are used in most organic analysis to demonstrate matrix compatibility with the chosen method of analysis

Tentatively Identified Compound (TIC) - A compound not contained within the analytical calibration standards but present in the GCMS library of defined compounds. When the library is searched for an unknown compound, it can frequently give a tentative identification to the compound based on retention time and primary and secondary ion match. TICs are reported as estimates and are candidates for further investigation.

Units: the unit of measure used to express the reported result - **mg/L** and **mg/Kg** (equivalent to PPM - parts per million in **liquid** and **solid**), **ug/L** and **ug/Kg** (equivalent to PPB - parts per billion in **liquid** and **solid**), **ug/m3**, **mg/m3**, **ppbv** and **ppmv** (all units of measure for reporting concentrations in air), % (equivalent to 10000 ppm or 1,000,000 ppb), **ug/Wipe** (concentration found on the surface of a single Wipe usually taken over a 100cm2 surface)

LABORATORY QUALIFIERS

- **B** Indicates when the analyte is found in the associated method or preparation blank
- **D** Surrogate is not recoverable due to the necessary dilution of the sample
- **E** Indicates the reportable value is outside of the calibration range of the instrument but within the linear range of the instrument (unless otherwise noted) Values reported with an E qualifier should be considered as estimated.
- H- Indicates that the recommended holding time for the analyte or compound has been exceeded
- J- Indicates a value between the method MDL and PQL and that the reported concentration should be considered as estimated rather the quantitative
- NA Not Analyzed
- N/A Not Applicable
- ND Not Detected at a concentration greater than the PQL/RL or, if reported to the MDL, at greater than the MDL.
- **NR** Not recoverable a matrix spike concentration is not recoverable due to a concentration within the original sample that is greater than four times the spike concentration added
- R- The % RPD between a duplicate set of samples is outside of the absolute values established by laboratory control charts
- S- Spike recovery is outside of established method and/or laboratory control limits. Further explanation of the use of this qualifier should be included within a case narrative
- **X** -Used to indicate that a value based on pattern identification is within the pattern range but not typical of the pattern found in standards. Further explanation may or may not be provided within the sample footnote and/or the case narrative.

APPENDIX I

QUALIFICATIONS OF ENVIRONMENTAL PROFESSIONAL

Principal Princi

EDUCATION

BS Geology University of California, Davis 1985

EXPERIENCE

Years with ENGEO: 36

REGISTRATIONS & CERTIFICATIONS

Certified Hydrogeologist, CA 413 Professional Geologist, CA 5810 HAZWOPER 40 Hour Training, CA 100830513934 HAZWOPER 8 Hour Training, CA 180720576014

SPECIALIZATIONS

- Environmental Assessments and Remediation
- Environmental Restoration
- · Water Quality Studies
- Water Wells/Hydrogeology

Since 1985, Shawn has been managing groundwater supply evaluations, hydrogeologic studies, chemical assessments, Phase I and II Site Assessments, UST site investigations, risk-based corrective action (RBCA), VOC remediation, and agricultural impact evaluations. He serves as Principal-in-Charge or Project Manager with extensive expertise in environmental and hazardous materials projects involving groundwater, hydrology, contaminant fate and transport, and complex remediation programs. A renowned expert in his field, Shawn has successfully solved many difficult environmental challenges to achieve desired project outcomes.

SHAWN MUNGER, CHG

SELECT PROJECT EXPERIENCE

Heritage Fields, Great Park Neighborhoods—Irvine, CA

Principal in Charge. Shawn provided principal oversight of the preparation of over 50 phase I and Phase II Environmental Site Assessments for the former El Toro Marine Corps Air Station (MCAS). The site is currently under development as a large-scale mixed-use development including several schools, residential subdivisions, recreational facilities and commercial development. Shawn also provided consultation regarding environmental site characterization and remediation at the site.

Hanover Cannery Park Project No. 14-473—San Jose, CA *Principal in Charge*. Shawn provided principal oversight and review of the Phase I ESA, and soil, groundwater, and soil gas sampling. The historical use of the site resulted in chlorinated solvent impacts to groundwater and soil gas. Results were communicated to the client as well as the oversight regulatory agency to come with the proposed remediation. The project consists of redeveloping an approximately 9-acre commercial/industrial property listed on the California Regional Water Quality Control Board's GeoTracker database as an open site assessment cleanup program site. Elevated concentrations of VOCs (specifically PCE and TCE) have been previously detected in soil, groundwater, and soil gas at the property.

Mission Village—Valencia, CA

Principal in Charge. Shawn provided principal oversight of multiple phase I/II environmental site assessments and site remediation. The project site consists of a large scale, residential and mixed-use subdivision, which was a former oil/gas production field, with more than 40 abandoned oil/gas wells.

Vita Pakt—Covina, CA

Principal in Charge. Shawn provided principal oversight of phase I/II environmental site assessments and risk evaluations. The approximately 5.9-acre site formerly operated as fruit processing and dehydration business (ceased operation by 2016) and is planned to be redeveloped into residential housing. Subsurface soil gas impacts were identified in association with past operations.

Innovation at Warm Springs—Fremont, CA

Principal in Charge. Shawn provided oversight of the preparation of Phase I and II ESAs, along with a Preliminary Endangerment Assessment (PEA) for a new elementary school site. The approximately 109-acre site is currently occupied by a parking lot, warehouse buildings, agricultural fields, and UPRR railroad tracks. The southern portion of the Property was a part of the former auto manufacturing and distribution facility jointly owned by Toyota and General Motors. The northern portion of the Property has been used for agricultural purposes since at least the late 1930s. Additionally, railroad tracks are present along the eastern boundary of the Property.

Former gasoline ASTs existed on the Property, along with a pump station and fuel dispensers, which were removed in 2010. The former car wash area also had a wastewater recovery system, which included oil/water separators, clarifiers, and interceptor tanks. One UST was located in the southeast portion of the agricultural fields, which was removed in 2004. Four 10,000-gallon diesel and gasoline USTs were formerly located in the southwestern portion of the Property in the haul-away parking lot area. Mixed-use redevelopment is planned for the Property. A phase II ESA was recommended for the Site, including soil and groundwater sampling.

277 Fairchild 228/236 Evandale Ave—Mountain View, CA

Principal in Charge. Shawn provided oversight of soil, groundwater and soil gas characterizations, risk evaluations and Response Action Plan preparation under USEPA oversight. The site is within the Middlefield-Ellis-Whisman (MEW) Superfund site, contaminated with chlorinated solvents from legacy semiconductor plant operations. On-going remedial activities included soil vapor extraction, groundwater treatment using bioaugmentation, and groundwater/soil gas monitoring. The proposed site development consists of detached single-family homes and townhomes.

The Rivers—West Sacramento, CA

Principal in Charge. Shawn provided oversight of during the preparation of a Removal Action Workplan (RAW) in coordination with CAL-EPA DTSC. The property is a proposed charter school site. ENGEO performed environmental site characterization work to address residual pesticide contamination die to historic termiticide applications. A Removal Action Workplan was developed under the oversight of CAL-EPA to excavate and remove the pesticide impacted soils. Remedial activities were completed in 2018 and DTSC issued a "no further action" letter.

Sparklizing Cleaners and Laundry—Fremont, CA

Group Leader, Principal in Charge, Project Manager. Shawn provided principal review and data analysis for this former dry cleaning facility, which had released tetrachloroethylene (PCE) to site soil and groundwater.

The project site consists of a dry-cleaning facility located within a commercial/retail center. Dry-cleaning operations have been conducted at the facility since 1974 and have resulted in chlorinated solvent impacts to soil and groundwater beneath the site. As a result, the CRWQCB opened a Spills, Leaks, Investigations, and Cleanups (SLIC) case and the site was referred to the Alameda County Water District (ACWD) for lead agency oversight. A series of soil and

groundwater investigations identified a source area beneath the drycleaner suite and an adjoining retail suite. ENGEO prepared a Corrective Action Plan (CAP) and coordinated the in-situ chemical oxidation program, which consisted of injecting 35,000 gallons of potassium permanganate to the subsurface to oxidize chlorinated solvents. The project is currently in the post remediation monitoring phase.

Pleasant Hill BART Station—Walnut Creek, CA

Principal in Charge. Shawn provided oversight, data analysis and consultation during the preparation of a Phase II Environmental Site Assessment. The property is an existing BART station that encompasses 20 acres, including the platform/station area, electrical facilities, a parking garage and additional paved parking areas.

Westshore—Richmond, CA

Project Manager. Shawn conducted Phase I and II Site Assessments, risk evaluations and prepared a soil management plan. The property was a former automotive manufacturing plant proposed for a multi-unit condominium development, including a 6-story podium structure to include five residential floors with 269 units and one parking floor.

Rancho Miramonte—Chino, CA

Principal in Charge. Shawn performed Principal review of ENGEO's environmental documents for this large former dairy facility, proposed for a large-scale detached single-family residential subdivision. Issues with the site included former leaking USTs, nitrate impacts from manure disposal, and surface water impairments. The project was approved for development by the County Environmental Health Department.

Hercules Property—Hercules, CA

Project Manager. Shawn provided oversight of a Phase I Environmental Site Assessment, site asbestos survey, site characterization, and demolition observation/contaminant assessment. The project area consists of ±167 acres located near and along the southeastern shore of San Pablo Bay in Hercules. The property was once a portion of a 1300-acre manufacturing facility that was operated by DuPont from 1879 to 1913 and Hercules Incorporated from 1913 to 1979. The planned development includes single/multi-family residential development with some commercial components.

Highlands Ranch—Pittsburgh, CA

Principal in Charge. Shawn provided oversight, data analysis, and collaboration with RWQCB personnel. The project site consists of a 140-acre portion of the former Chevron Los Medanos Tank Farm located in Pittsburg, California. The site was historically occupied by 24 crude oil tanks and four wax ponds. Remediation of the crude oil tank and wax pond locations was conducted according to a remedial action plan (RAP) and oversight was provided by the CRWQCB. Remediation was performed over a period of four months and consisted of excavating approximately 110,000 cubic yards of impacted soil and placing the material in windrows for exsitu bioremediation.
